HERRICK

**Will Not Be a Candidate
from Ohio for Presi-
dent in 1916**

**HARDING ALSO IS OUT
OF IT**

**A Clear Field for Former
Senator Burton**

STATEMENTS ARE ISSUED

Which Eliminate the For-
mer U. S. Ambassador to
France and Present Sena-
tor, So That It is Likely
Mr. Burton Will Be the
Unanimous Choice of the
Ohio Delegation.

(ASSOCIATED PRESS TELEGRAM)
Columbus, Nov. 9.—Myron T. Her-
rick, former governor of Ohio, and
ambassador to France, today an-
nounced he would not be a candidate
for Republican presidential nomina-
tion.

This statement, together with the
declaration of Senator Warren G.
Harding, that under no circumstan-
ces would he consider seeking the
presidential position, apparently left
the field clear for former Senator
Theodore E. Burton to claim the
solid support of the Ohio delegation
for president.

Mr. Herrick authorized a state-
ment that he had given Mr. Burton
assurances a month ago he would not
enter a contest with Mr. Burton, but
that he would be a candidate for dele-
gate-at-large from Ohio to the Re-
publican national convention.

This attitude of the former gov-
ernor apparently eliminated all
doubt in political circles that Mr.
Burton would be the unanimous
choice of the Ohio delegation for
the presidential nomination, particu-
larly in view of his series of confer-
ences with party leaders here yester-
day.

Influential Republicans today con-
tinued to pour into Columbus, to tell
Gov. Willis their approval of his
withdrawal from the presidential
contest. Apparently all were not
satisfied, however, with the proposed
plan of the organization to support
Harry M. Daugherty, of Columbus,
for the senatorial nomination. It
was expected that Republican leaders
would continue informal parleys here
during the next week to discuss the
availability of those who want the
chance to run for United States
senator on the Republican ticket.

**POTTERY GIRLS
GO ON A STRIKE**

(ASSOCIATED PRESS TELEGRAM)
Sebring, O., Nov. 9.—Four hun-
dred girls employed at five potteries
here are on strike today as the re-
sult of refusal of the management to
grant a wage increase from \$1.50
to \$1.75 a day. A conference was
to be held this afternoon between
representatives of the strikers and
employers.

**GERMANS TAKE
SERB POSITION**

(ASSOCIATED PRESS TELEGRAM)
Berlin, Nov. 9.—(By wireless to
Sayville).—Capture by the Germans
of the main Serbian positions south
of Kraljevo was announced today by
army headquarters. In the capture
of Krusevac by the Germans, seven
thousand Serbians were made pris-
oners.

REQUISITION ISSUED.
(ASSOCIATED PRESS TELEGRAM)
Columbus, Nov. 9.—The govern-
or's office today issued a requisition
on the governor of New York for
the return of H. J. Speanburgh
wanted in Summit county on a for-
gery charge, and under arrest in Al-
bany.

**PARDONS SOUGHT
FOR DYNAMITERS
FROM PRESIDENT**

(ASSOCIATED PRESS TELEGRAM)
Washington, Nov. 9.—President
Wilson was asked again today by a
delegation of Union leaders to com-
mute the sentence of former officers
of the structural iron workers union
now serving terms in Leavenworth
penitentiary for the so-called dynamite
conspiracy which involved the
destruction of the Los Angeles Times
and ramified throughout the coun-
try. Clemency was asked for Frank
M. Ryan, of Indianapolis, former
president of the iron workers and
twelve others. It was represented
to the president that the men have
served about one third of this term
and that the prison record of each
has been exemplary.

A year ago appeals for pardons
were refused. The president took
the appeal under advisement.

TWO ROADS

**Now Open to Constantinople,
One by Rail, One by
River Danube**

**FOR BULGARIAN-TEU-
TON FORCES**

**Executed Without Weaken-
ing Other Fronts**

WELL-OILED MACHINERY

Could Work No More Ac-
curately Than the Plans
of the Central Powers in
the Balkans, But Indica-
tions Are That the In-
vaders Will Soon Meet
With Some Check.

(ASSOCIATED PRESS TELEGRAM)
London, Nov. 9.—The Central Pow-
ers and their Bulgarian ally now
control about two-thirds of Serbia and
within a few weeks probably will
have the main Serbian railroad, run-
ning through Belgrade and Nish, in
full operation. This will give them
two routes to Constantinople, as com-
munication by way of the Danube to
Bulgaria is already open.

That this has not been accom-
plished without weakening the other
fronts is indicated by definite news
of Russian advances on the Riga-
Dvinsk front, the last part of the
eastern battle line on which the in-
vaders kept up anything in the na-
ture of a definite offensive.

Thus far the plans of the central
powers in the Balkans have worked
like well oiled machinery, but the
latest news from Macedonia indicates
the initiative is not to be left en-
tirely to the invaders much longer.
Reports come by way of Paris that
the Anglo-French forces are making
their presence felt against the Bul-
garians. The entente allies claim
their operations are proceeding along
the whole front with success, not-
withstanding the handicap of operat-
ing in a difficult country.

It is reported also that the Serb-
ians, holding part of the Macedonian
front, have checked the Bulgarians,
after inflicting heavy losses on
them. If the Serbians can sustain
an attack for a short period the
French should be able to join them
south of Veles.

The Russians continue their pol-
icy of sharp and unexpected attacks
at various points along the whole
front. The latest of these attacks,
according to Petrograd, consisted of
three successful assaults southwest
of Riza, two southwest of Dvinsk
and three west of Styra, south of the
Pripiet marshes, where the Austro-
German line was broken in two
places. Except for artillery ex-
changes on the western front nothing
of great importance has occurred
recently in that theatre of war.

**GREECE SAID TO
HAVE ASKED FOR
FINANCIAL AID**

(ASSOCIATED PRESS TELEGRAM)
Paris, Nov. 9.—The Greek govern-
ment is reported to have appealed to
the allies for further financial as-
sistance. A despatch from Athens to
the Havas agency says that the gov-
ernment desires to obtain an addi-
tional advance of 40,000,000 francs
(\$8,000,000), and that this request is
being considered sympathetically.

**Americans Now in Japan for
Coronation Ceremonies Are
Shown Extensive Courtesies**

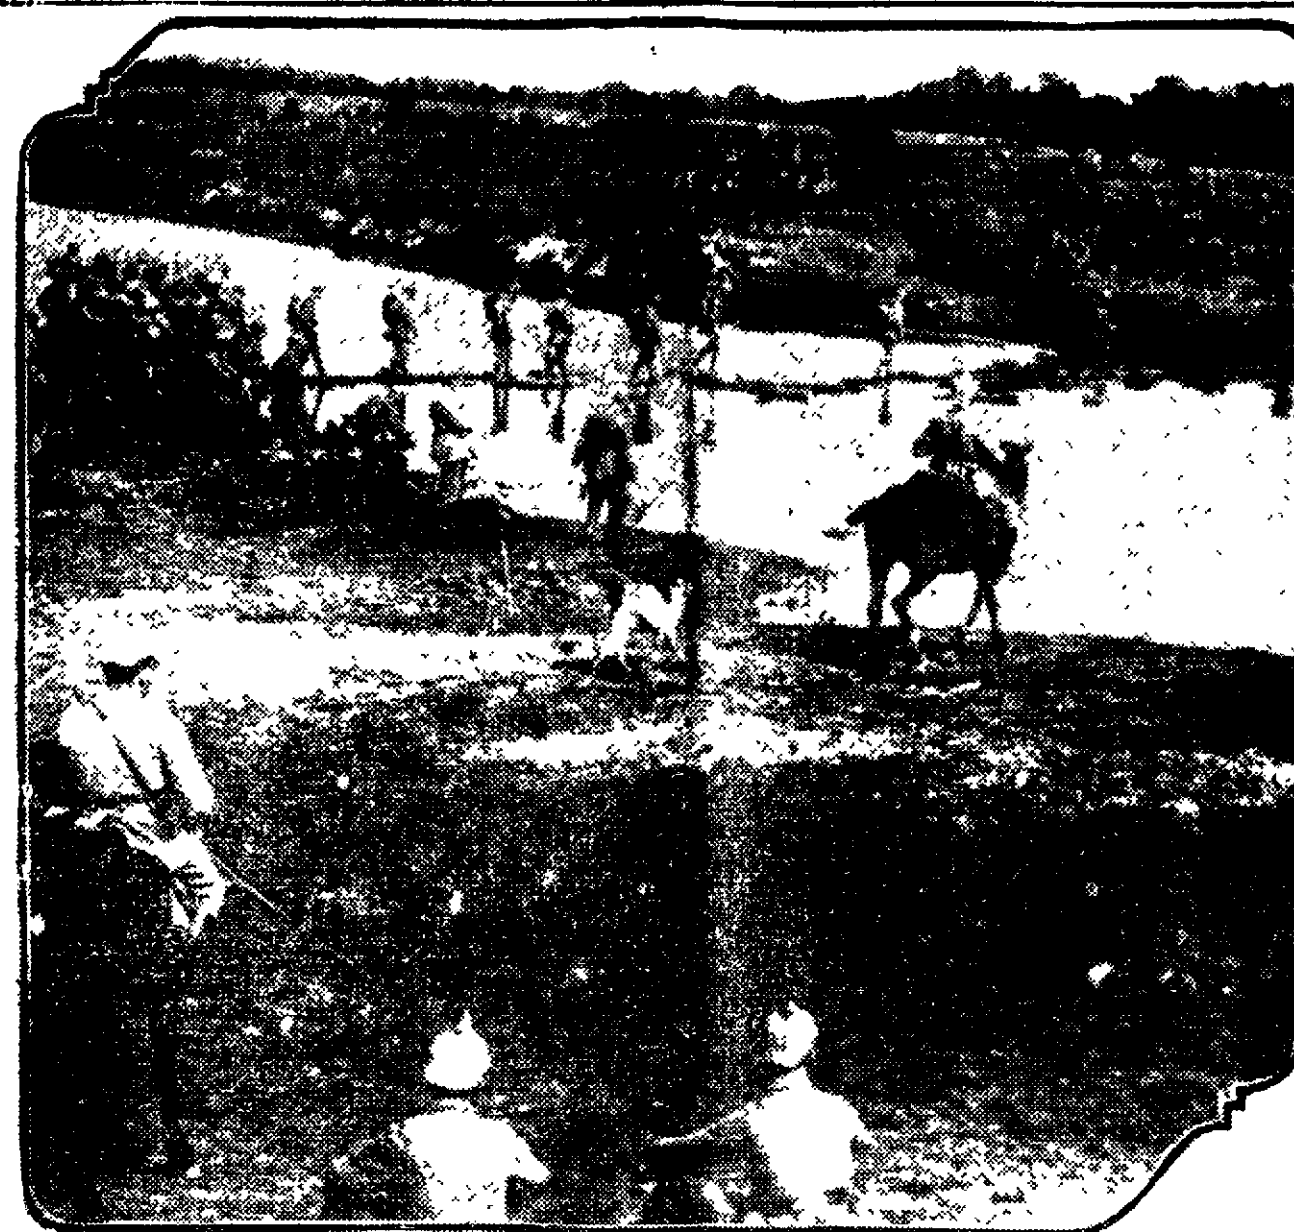

(ASSOCIATED PRESS TELEGRAM)
Kioto, Japan, Nov. 9.—Most of the
diplomats and special envoys who
have arrived here to attend the cor-
onation ceremonies are quartered at
the Kioto hotel which has been ren-
dered up from cellar to roof. Every
article used was manufactured under
the direction of the imperial house-
hold, constituting one of the items
in the \$5,000,000 budget provided
to pay the expenses of the corona-
tion.

Press representatives were enter-
tained at the hotel by mayor Inouye
at a historic Japanese dinner. An-
cient dances presented by Geisha
girls, took the guests back a thou-
sand years in the history of the em-
pire.

The mayor paid tribute to the im-
portant role the press has played in
promoting the progress of Japan,
and like the mayors of American
cities, he took advantage of the op-
portunity to point out the attrac-
tiveness of Kioto and the great in-
dustrial advance it has made.

Many of the Americans in the city
attended the celebration of the fortieth
anniversary of the Doshisha
Christian College, which is support-
ed largely by the subscriptions of
Americans and which was founded

GERMANS CROSSING THE RIVER SELWIANKA NEAR DVINSK

During the recent drives to reach Dvinsk the Germans found all progress across the river Selwianka blocked, due to the destruction by the retreating Russians of the bridges spanning the stream. The engineering division of the Teuton forces hastily constructed footbridges of logs across the river, permitting the infantry to cross.

**Greek Chamber of Deputies
May Be Dissolved as the
New Ministry Is Unpopular**

(ASSOCIATED PRESS TELEGRAM)
Athens, Nov. 8.—Via Paris, Nov.
9.—A prediction that the Chamber
of Deputies will be dissolved unless
a majority agrees to support the cabi-
net is credited to Premier Skoulou-
dis by the Paris, which asserted that
he replied when asked whether the
ministry would appear before the
chamber.

"The question is not formally set-
tled yet, but will be voted upon at
a meeting of the cabinet this after-
noon. I can say now, however, that
the cabinet will not appear unless as-
sured of a majority. If a guarantee
of this is not given the chamber
will be dissolved.

The section of the press which
supports M. Venizelos is unanimous
in declaring that the presence of
general Yanakitsas in the new min-
istry makes it quite impossible for
the parliamentary majority to give
even a vote of tolerance to the gov-
ernment.

**MANY MINISTERS IN
FAVOR OF DISSOLVING
THE NEW PARLIAMENT.**

(ASSOCIATED PRESS TELEGRAM)
London, Nov. 9.—A Reuters dis-
patch from Athens filed yesterday
says:
A cabinet meeting was held today,
but nothing transpired as to whether
the government will accept the propo-
sals of M. Venizelos with a view
to avoiding the dissolutions of parli-
ament.

These proposals consist either of
Minister of War Yanakitsas express-
ing regret for the incident which re-
sulted in the overthrow of the Zam-
bini ministry or all the followers of
M. Venizelos absconding themselves
from the sessions of the chambers

giving a free hand to the other de-
puties who will constitute a quorum.
"It is understood a majority of the
ministers favor dissolution."
General Yanakitsas, the minister
of war, is credited with being re-
sponsible for the vote in parliament
which showed a lack of confidence
in Premier Zambini and his fellow
ministers after he had refused to
comply with the demand of M. Veni-
zelos that he apologize for a remark
to which the parliamentary leader
took exception. Yanakitsas retains
the portfolio of war minister in the
reorganized cabinet.

**GUATEMALA REBELS
GAIN BIG VICTORY
OVER GOVERNMENT**

(ASSOCIATED PRESS TELEGRAM)
El Paso, Texas, Nov. 9.—The de-
feat of the forces of President Caba-
cera of Guatemala by revolutionists
was reported today to Andres G.
Garcia, Mexican consul here in ad-
vices from Mexico City. According
to the dispatch the revolutionists at-
tacked the government forces at
Valle de Ixtalam, and a severe bat-
tle followed. The dispatches were
based on reports by Gov. Blass Car-
ral, governor of Chimalpa, state of
Mexico.

MUNITIONS

**BEING MANUFACTURED IN
ABUNDANCE AND TAKEN TO
THE FRENCH FRONT**

Demands of Commander-in-Chief
for All Kinds of Shells Are
More Than Covered.

(ASSOCIATED PRESS TELEGRAM)
Paris, Nov. 9.—Every branch of
the munitions service has been ex-
tended to a formidable extent," said
Minister of Munitions Thomas in an
interview granted a Paris news-
paper.

"With one or two exceptions the
demands of the commander in chief
for all kinds of shells now are more
than covered."

One would be greatly surprised,
M. Thomas said, if the production
today were compared with that of
September 1914. The same is true
in regard to the output of rifles, ma-
chine guns and explosives.

"But, however, intense the recent
efforts," the minister of munitions
added, "they are as nothing to what
will be necessary. More and still
more will be wanted. The success of
the Champagne offensive was due to
our increased production for a com-
plete and speedy victory the whole
effort of the nation will be required."

STOCK ISSUE AUTHORIZED.

(ASSOCIATED PRESS TELEGRAM)
Columbus, Nov. 9.—The public
utilities commission today author-
ized the Youngstown & Ohio River
railroad company to issue \$200,000
20-year first mortgage five percent
gold bonds, to be used in refunding
other securities of the company.

DISCUSSION

**OF SPANISH NEUTRALITY IN
PUBLIC IS DEPRECATED BY
PREMIER.**

**As Likely to Provoke Critical Sit-
uation in Case Spain Should be
an Arbiter of Peace.**

(ASSOCIATED PRESS TELEGRAM)
Madrid, Nov. 8.—(Via Paris, Nov.
9.)—An attempt made in the sena-
te by Amos Salvador, former min-
ister of finance, to define neutrality,
resulted in a rebuke from Premier
Dato, who deprecated all public dis-
cussion of neutrality. The prime
minister said he believed collective
manifestations of sympathy for one
set of belligerents or the other was
dangerous as being likely to provoke
a critical situation. "This was es-
pecially true in the case of Spain
which he believed may eventually
find it her duty to intervene in fa-
vor of peace.

Senor Soriano, a radical, declared
in the chamber of deputies with re-
ference to the sinking of merchant
ships of the allies in the Mediter-
ranean that the situation was grave
since Spain's silence might be con-
strued as complicity.

STAMP COLLECTION SOLD.

(ASSOCIATED PRESS TELEGRAM)
New York, Nov. 9.—The famous
collection of American postage
stamps made by Alexander Edward
Lindsay, the late Earl of Crawford,
has been purchased by a New York
dealer and is now in this country.
The collection is said to have cost
the late earl \$200,000. It was sold
by his son who succeeded to the
title.

KILLED IN QUARREL.

(ASSOCIATED PRESS TELEGRAM)
East Liverpool, O., Nov. 9.—
Joseph Papena, 23 was shot and
killed in a boarding house at Mud-
land, Pa., near here today as the
result of a quarrel in a card game.
Michael Depena is under arrest.

**Governor Willis Calls Ohio
To Thanksgiving and Names
Several Causes for Gratitude**

(ASSOCIATED PRESS TELEGRAM)
Columbus, Nov. 9.—Governor Wil-
lis today, issued a proclamation
in which he designates Thursday,
November 25th as Thanksgiving
Day. The governor's proclamation
calling attention to the European
war says: We have special occasion
for manifestation of the spirit ap-
propriate to Thanksgiving day, this
year because this country is at peace,
while powerful nations across the
sea are engaged in the most fright-
ful combat of all the centuries.

The proclamation reads in part:
"Thanksgiving Day as observed in
Ohio, is particularly an American
institution, having its origin in the
intense religious nature of the early
settlers of our country. From
Colonial times it has gradually com-
bined the better elements of the
ancient autumnal festival with the
sacred thoughts and memories that
center in church and home.

"This year we have special oc-
casion for manifestation of the
spirit appropriate to Thanksgiving
Day. While powerful nations across

the sea are engaged in the most
frightful combat of all the centuries,
we are at peace. It is our prayer
that the mighty scourge of war
may speedily pass away. Peace
with honor is our passion; among
our fellow citizens, there is no senti-
ment for wars of conquest or aggres-
sion.

"In an unusual degree during the
past year, we have been blessed with
bountiful harvests. We have come
in health and safety through the
year that has gone.

"In view of the many blessings
that are ours in harmony with
American customs and in compliance
with the recommendation of the
president of the United States, there-
fore

"I, Frank B. Willis, governor of
the state of Ohio, recommend that
the people of the state observe
Thursday, November 25th, 1915, as
Thanksgiving day in their homes,
public assemblies and places of wor-
ship and that they render thanks to
the bountiful Giver of all for the
benefits we enjoy."

KITCHENER

**Is Said to Be Selected to
Settle Difficulties
in India**

**A SERIOUS STATE OF
UNREST**

**Is Now Said to Be Confront-
ing the British**

PRESS STRICTLY CENSORED

And Only Very Few Facts
As to Conditions in India
and Egypt Are Allowed to
Filter Through, But It is
Said Kitchener's Ulti-
mate Destination Will Be
India.

(ASSOCIATED PRESS TELEGRAM)
Washington, Nov. 9.—Earl Kitch-
ener's ultimate mission during his
mysterious absence from the British
war office is said by confidential in-
formation received here today to be
India, where, according to the same
information, British rule is confront-
ed with a more serious state of un-
rest than has generally been known
outside of British official circles.

Through the thick veil which the
British censorship has thrown about
the events in India and Egypt, comes
a statement that Nawab, Sultan Ul
Mulik, the Nizam of Hyderabad, one
of the most influential of the native
princes and a staunch supporter of
the British has been deposed by his
people.

This development coming as one
of the climaxes to successive reports
of mutinies and unrest, many of
which have been substantiated and
admitted by the British government
is said to be the leading reason for
Earl Kitchener's departure from
England, which has been shrouded
with much mystery.

It has been officially announced
that the head of the British war of-
fice was on his way to the theatre
of operations in the near east which
has been generally interpreted as
meaning the Balkans where the criti-
cal situation of the moment con-
fronts the allied forces. Informa-
tion reaching the United States,
however, through channels not sub-
jected to censorship is to the effect
that it is well known in London
among those close to the government
that while Earl Kitchener may stop
in the Balkans to co-ordinate the ef-
forts of the allied forces, his ulti-
mate destination is not only India,
but Egypt as well, where the British
gateway to Asia now is menaced by
the Turkish-Bulgarian-Turk suc-
cesses in the Balkans. Coupled with
reported rumors of activities of Ger-
man agents fomenting discontent
among the native population of In-
dia have come reports of dissatisfaction
in Egypt also ascribed to the
same sources.

Earl Kitchener's selection for the
task of holding Britain's oriental
empire intact is viewed generally as
having been caused by his long ser-
vice in India and Egypt, his intimate
knowledge of the native tempera-
ment and his large personal follow-
ing among the leaders of the natives.
At the Japanese embassy the opin-
ion was expressed that under the
treaty between Great Britain and
Japan, the latter would be bound to
furnish troops if called upon for
duty in India and Egypt. The em-
bassy however, had no advice on
the situation in India. Sir Cecil
Spring-Rice, the British ambassador,
is at Ottawa paying a visit to the
governor-general of Canada. At the
embassy it was said no new advice
had been received to throw light on
the situation.

GAMBLER

**Need Not Be Caught in the
Act to Be Prose-
cuted**

**BUT THE PRESENCE OF
PARAPHERNALIA**

**Is Sufficient Basis for Ac-
tion Against Him**

SUPREME COURT DECIDES

Case Coming Up From Ham-
ilton County and Defines
Term "Known Gambler"
—Important to Every Po-
lice Department in Ohio
—Other Decisions Made
Known Today.

(ASSOCIATED PRESS TELEGRAM)
Columbus, Nov. 9.—The supreme
court in a decision today held that
a gambler does not have to be caught
in the act to be prosecuted, but that
the presence of gambling apparatus
is a sufficient basis for action
against him. The decision is of im-
portance to every police department
in the state. The court's action was
in a Cincinnati case in which Samuel
Hirsch had been convicted of being
a "known gambler," and fined. He
contested the case, asserting the
police had raided his office without
a warrant and had found no actual
gambling taking place, although
gambling paraphernalia had been
discovered there. The supreme court
dismissed the case, holding no con-
stitutional question was involved.

The court today affirmed deci-
sions of lower Cuyahoga county
courts ordering the Comstock
Amusement Co. to pay \$4791 to the
Opera Ball Co. which managed a
play in which Marie Cahill featured
nearly four years ago. The show
company refused to give a perform-
ance because the theater company
would not make a settlement. The
supreme court decision holds that
the amusement company was at fault.

Darke county will have to pay \$12-
200 to Mercer county for ditch im-
provements arranged in 1910 to ben-
efit lands in both counties, the court
held. Commissioners of the two
counties had arbitrated the question
and Darke county commissioners
then sued, claiming the law under
which the arbitration was made was
unconstitutional.

The court affirmed verdicts of
lower Hamilton county courts order-
ing the Dolly Varden Chocolate Co.
to pay \$5000 to Victor Bitiner, of
Norwood, for injuries received at the
company's plant in February, 1912.
Jeremiah Delaney, former Cincin-
nati patrolman, won his fight for
\$4593 back pension against trustees
of the Cincinnati police pension
fund. The supreme court affirmed
the verdicts of the lower court
which ordered the payment to De-
laney and his reinstatement as a par-
ticipant in the fund.

A new trial in Butler county com-
mon pleas court was directed in the
suit of Benjamin F. Primer, as city
solicitor of Hamilton, to compel the
Butler county commissioners to fix
his salary as prosecutor of the Ham-
ilton municipal court at \$65 a month.
The supreme court refused to re-
view the suit of Willard D. Chamber-
lain against the Dayton board of ed-
ucation, relating to a contract for the
heating system in a new Dayton View
school.

The city of Akron sought to have
dismissed the suit of Frederick A.
Avery to prevent what he thought
were excessive assessment levies for
a sewer along Rider avenue, but the
court decided to review the case.

By refusing to review the suit of
Austin W. Vorhes against the Meigs
County Agricultural Society, the
court allowed to stand the verdict
of the court of appeals, which or-
dered payment of about \$30,000 to
Vorhes on a note given by directors
of the society more than 20 years ago.

STATE OFFICIAL DEAD.
(ASSOCIATED PRESS TELEGRAM)
Indianapolis, Nov. 9.—Richard M.
Milburn, 50, attorney general of In-
diana, died at a hospital here today
of leakage of the heart.
He took office last January.

**FAY'S PLEA IS
NOT GUILTY IN
DYNAMITE CASE**

(ASSOCIATED PRESS TELEGRAM)
New York, Nov. 9.—Lieutenant
Robert Fay, late of the German
army, and the four men whom the
United States government was group-
ed with him as defendants to a
charge of trying to blow up mun-
itions ships today pleaded not guilty
to the indictment found yesterday
against them. They asked also for
a reduction in bail, but federal
judge, Howe, denied this and said
he would allow the present bail of
\$25,000 in each case to stand.

GERMANS MAKE NO COMMENT ON AMERICAN NOTE

(ASSOCIATED PRESS TELEGRAM)
Berlin, Nov. 9.—(Via London)—Berlin newspapers as a rule make no comment on the American note to Great Britain relative to interference with shipping. Summaries of the note as received in Berlin are published even without indications in headlines of the significance attached to the communication.
The Morgen Post, however, makes the following comment:
"It is to be hoped the lesson in international law which the Washington government gives the British government, will make the desired impression in London."
"The program for 'protection of neutral commerce' is very praiseworthy and America as the strongest neutral power could thereby do great service to all neutrals if the program should actually be carried out."

WILLIS IS GUEST OF CINCINNATI

(ASSOCIATED PRESS TELEGRAM)
Columbus, Nov. 9.—Governor Willis will be the guest of the city of Cincinnati tonight and tomorrow. He left this afternoon to make an address tonight before the Cincinnati Business Men's club. Tomorrow he will be entertained by the Cincinnati Chamber of Commerce and tomorrow night he will address the Business Men's Club at Hartwell Hamilton county. He expects to return to Columbus, Thursday.

CONDUCTORS ELECT OFFICERS FOR 1916

The election of officers for Division 166, Order Railway Conductors was held on Sunday afternoon with the following result:
Chief Conductor—Con W. He
Assistant Conductor—D. H. Murphy.
Secretary-treasurer—J. S. Woodward.
Senior Conductor—Charles Reel.
Junior Conductor—J. P. Truick.
Inside Sentinel—Geo. Taylor.
Outside Sentinel—Wm. Lamb.
Trustees—E. T. Hukill, Charles Farabee, E. C. Cooper.
Grievance committee—S. F. Moore, chairman; Charles Reel, S. J. Andrews.
Delegate to convention—T. J. Andrews.
Alternate—J. H. Meador.
Membership committee—J. L. Toller, W. T. Howard, E. C. Cooper.

PROVEN SWAMP-ROOT AIDS WEAK KIDNEYS

The symptoms of kidney and bladder troubles are often very distressing and leave the system in a rundown condition. The kidneys seem to suffer most as almost every victim complains of lame back and urinary troubles which should not be neglected, as these danger signals often lead to dangerous kidney troubles.
Dr. Kilmer's Swamp-Root, which soon heals and strengthens the kidneys is a splendid kidney, liver and bladder remedy, and being an herbal compound, has a gentle healing effect on the kidneys which is almost immediately noticed in most cases by those who use it.
A trial will convince anyone who may be in need of it. Better get a bottle from your nearest drug store and start treatment at once.
However, if you wish to first test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention the Newark Daily Advocate.

THE HOME BUILDING ASSOCIATION COMPANY OF NEWARK, OHIO

THE OUTWARD EVIDENCE

of the Spirit of Service which dominates this Institution is seen in the new building we are now occupying and which is fitted throughout for the comfort and convenience of our customers.

Less focussed in the public eye but much greater in fact are the actual results of our service—prosperous savers and happy home owners.

Could you know the life of each of these, then and then only would you realize the extent of our service.

Are we serving YOU?
We hope to.

ANTI-TOXIN

IS BEING PRODUCED FROM ONE THOUSAND HORSES IN NEW YORK

To be Used for Prevention and Cure of Tetanus in European Armies.

(ASSOCIATED PRESS TELEGRAM)

New York, Nov. 9.—One thousand horses in New York are being used to produce tetanus anti-toxin for the armies of Europe, according to an estimate by Dr. William H. Park, head of the city's bacteriological laboratories. When the war began the board of health, from humanitarian motives went into the business of making this serum, but now that the large commercial laboratories have developed means for handling the industry Dr. Park said today the department has decided to return to its normal output.

Not taking into account the overhead charges and the services of experts for these would have to be kept bus anyway the profits from the sale of tetanus anti-toxin have been \$37,000. Dr. Park estimates that the department of the conflict 44,000 soldiers have received injections of the anti toxin.

BOOKWALTER

TRIED TO PROVIDE AGAINST ANY BEHEFT FARM CONTESTING HIS WILL

By Inserting Clause That Any Person Raising a Question Should Not Share in Estate.

(ASSOCIATED PRESS TELEGRAM)

Springfield, O., Nov. 9.—With the filing of the will of the late John W. Bookwalter, retired manufacturer, author and philanthropist provision is made for the distribution of an estate the estimated value of which is \$5,000,000. Mr. Bookwalter died at San Remo, Italy, in September. The direct heirs are Frank M. Bookwalter of this city, W. H. Bookwalter of Bookwalter, Neb., and Mrs. Melissa Baxter of Columbus, brothers and sisters, are bequeathed the residue of the estate share and share alike Frank M. Bookwalter, and Charles W. Constantine, of this city are named as executors without bond.

Bequests are left as follows: Gertrude (Claypool) of Indianapolis, \$100,000; Anna Blane, 330 West 59th street New York City, \$10,000; Mrs. Jessie Beadle, \$10,000; Charles W. Constantine, \$25,000; Katherine M. Johnston, Wellington Hotel, Seventh avenue, New York, \$30,000.

The will provides that if any person raises a question about the instrument he shall not participate in the sharing of the estate. Mr. Bookwalter's stock in the James Leffel and Company shall be held by A. F. Sparks and C. W. Constantine as trustees and shall vote it for the deceased as long as they are not identified with any other competing business. The stock shall be divided equally between Frank M. Bookwalter, W. H. Bookwalter and Mrs. Melissa Baxter upon the termination of the trusteeship. Other bequests were to Orrin R. Perkins, and Jacob Bloom-Taylor-Hatfield of New York, who each receive \$10,000. The will was dated October 12, 1903. No mention is made about Mr. Bookwalter's famous art collection which goes to his direct heirs.
The estate consists of business blocks in Springfield and about 48,000 acres of land in Nebraska, Kansas, Illinois, and Ohio.

Want a house? Read the Wants.

PURCHASE

OF MILLIONS OF DOLLARS' WORTH OF STRUCTURAL IRON AFTER WAR

Will be Made by France, and Industrial Commission Has Arrived to Make Arrangements.

(ASSOCIATED PRESS TELEGRAM)

New York, Nov. 9.—Five members of the French industrial and commercial commissions landed here today from the steamship Lafayette and said they came to arrange for the purchase, at the conclusion of the war of at least \$100,000,000 worth of structural iron and steel machinery and industrial supplies. All supplies of this character the commissioners said, were formerly imported from Germany. The commissioners said that while they are here primarily to purchase supplies necessary to reconstruct and modernize French industries when the war is over they will endeavor to establish reciprocal trade relations between the United States and France.

The commission is headed by Maurice Damour, formerly French consul general at New Orleans, now secretary of appropriations of the French chamber of deputies. The other members are J. Lesner, agricultural engineer and a delegate of the chamber of deputies, L. Trinquand, director of the national watch-making school at Besancon, and a delegate of the chamber of deputies, E. Delesalle-Thierzy, secretary of the spinners' syndicate, and L. Chouffeur, a banker.

Three other members representing the metallurgical industry, and the Lyons chamber of commerce, will arrive shortly.

Remarkable Results of the New Tissue Builder Tonaline Tablets in Many Cases of Run-down Men and Women.

PROVE IT YOURSELF BY BUYING A BOX OF Tonaline Tablets NOW

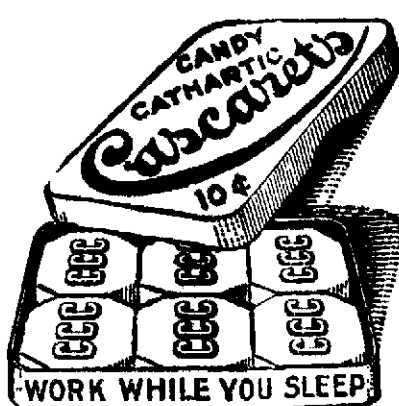

"By George, I never saw anything like the effects of that new treatment, Tonaline Tablets for building up of weight and lost nerve force. It acted more like a miracle than a miracle than a medicine," said a well known gentleman yesterday in speaking of the revolution "I began to think that there was nothing on earth that could make me fat. I tried tonics, digestives, heavy eating, diets, milk, beer and almost everything else you could think of. Any man or woman who is thin can recover normal weight by the best new treatment Tonaline Tablets. "I have been thin for years and began to think it was natural for me to be that way. Finally I read about the remarkable processes brought about by use of Tonaline Tablets so I decided to try myself. Well, when I look at myself in the mirror now, I think it is somebody else. I have put on just forty pounds during the last forty days, and never felt stronger. Tonaline Tabs are a powerful inducer to nutrition, increases the number of blood corpuscles and as a necessary result builds up muscles, and solid, healthy flesh, and rounds out the figure.
For women who can never appear stylish in anything they wear because of their thinness this remarkable treatment may prove a revelation. It is a beauty maker as well as a form builder and nerve strengthener. Tonaline Tabs cost \$1 for a 15 days' treatment.
For sale by Hall's Drug Store.

One of the commonest of virtues is honesty that has never been tried out.

BEST FOR LIVER, BOWELS, STOMACH, HEADACHE, COLDS

THEY LIVE THE LIVER AND BOWELS AND STRAIGHTEN YOU RIGHT UP.

DON'T BE BILIOUS, CONSTIPATED, SICK WITH BRUTAL BAD AND STOMACH SOUR.

Tonight sure! Take a cathartic and enjoy the nicest, gentlest liver and bowel cleansing you ever experienced. Wake up with your head clear, stomach sweet, breath clean and feeling fine. Get rid of sick headache, biliousness, constipation, furred tongue, sour stomach, bad colds. Clear your skin, brighten your eyes, quicken your step and feel like doing a full day's work. Cathartics are better than salt pills or cholera because they don't shock the liver or scrape the bowels or cause inconvenience all the next day.
Mothers, should give cross, sick bilious feverish children a whole Candy Cathartic anytime as it will not injure the thirty feet of tender bowels.

Obituary

John Milton Howard.

John Milton Howard died at his home, corner of Main and Norton avenues on Monday evening at 7:30 o'clock, after an illness of only a day's duration. Death was due to an affection of the heart.

Mr. Howard worked about his home Monday morning and while he had been feeling much better he was not ill. He was seen with an attack of heart trouble about 8 o'clock and never rallied.

The deceased was born July 1, 1840 in Delaware, O., and has resided in Newark for the past forty years. For fifteen years he was clerk at the Warden hotel but during the past eight years he has lived a retired life. He is survived by his wife and one sister, Mrs. Elizabeth Woods of near Chatham. He has been a life long member of Trinity Episcopal church.

William H. Martin.

William H. Martin, 52 years old, an employe of the Heisey glass factory died Sunday at midnight at his home 7100 Good avenue following an illness of Bright's disease.

Mr. Martin was born in Bellare, O. Feb. 13, 1863. He has been a resident of Newark for the past 20 years. He is survived by ten children: Mrs. Vera Maxwell, Mr. Walter Martin of Kinton, Mr. Thomas Martin, Mr. Leo Martin, Mrs. Maud Kelley, Helen Gray, Adra, George and Lester. Martin was a member of the Flint Glass Workers' union, and of the M. W. of A.
Funeral service will be held at the home Wednesday afternoon at 1:30 o'clock. Burial at Cedar Hill cemetery.

Edith I. Kureth.

Miss Edith I. Kureth, daughter of Mrs. A. L. Kureth died at her home 63 Tenth street at 7:45 o'clock this morning after a lingering illness of several weeks.

Miss Kureth was born in Dayton, O., and at an early age went with her parents to Fairburg, Va., where she attended and graduated from Holy Cross Academy. With the family she came to this city several years ago and prior to her illness was stenographer for a prominent manufacturing concern here.
Besides her mother she is survived by three sisters, Misses Clara, Mary, and Keyes Kureth, and three brothers, A. Louis, of Detroit, Mich., Raymond M. of Baltimore, Md., and Edward J. Kureth of the home.
The funeral arrangements have not been completed.

Ralph Bane's Funeral.

The remains of Ralph Bane will arrive from Jacksonville, Fla., tomorrow night and the funeral service will be conducted Thursday morning at 10 o'clock at Trinity Episcopal church. The Rev. L. P. Franklin officiating. Burial will take place in the family lot in Cedar Hill cemetery.
Mr. and Mrs. Edward Hubbard, Mrs. Ralph Bane and daughter will be at the Hotel Sherwood tomorrow evening. Mrs. Bane and her daughter are now on their way to Newark from Florida with Mr. Bane's remains.

Jos. C. Hartupce's Funeral.

The funeral of Joseph C. Hartupce will take place Thursday morning at 10 o'clock from his late home, 60 North Seventh street, Rev. W. D. Miss Emma Hartupce and two sons, a veteran of the Civil war and will be buried with military honors. He is survived by his wife, a daughter, Miss Emma Hartupce and two sons, Clinton and Earl, who were in the state of Mississippi when their father died but who will reach here in time for the funeral.

DETAILS GIVEN OF SINKING OF A BRITISH STEAMER

(ASSOCIATED PRESS TELEGRAM)
Paris, Nov. 9.—A delayed Havas dispatch from Melilla, Morocco, filed on Friday gives details of the sinking of the British steamship Woodhead reported last week. The Woodhead, which was in the British transport service, was sunk off Penon near Moroccan coast, by a German submarine. The crew took to four lifeboats. Three of the boats reached land. The other was missing at the time the dispatch was filed.

Single nickel salts can not be used alone for plating without the addition of a conducting salt such as sulphate of ammonia.

Advertising Surely Pays.

By BREEN.

The biggest business enterprises in this country were built upon advertising. None will deny that. Newspaper advertising is the most potent of all. The money that is spent annually in the newspapers of the United States is enormous.

Enormous as it is, the return is tenfold. And yet one occasionally will find some self sufficient business man who will declare he doesn't need advertising.

Every man in every business needs advertising. Some need it more than others. It is nonsense to say that a certain article sells itself.

SERBIANS REPORT ALLIES' POSITION AS SATISFACTORY

(ASSOCIATED PRESS TELEGRAM)
Paris, Nov. 9.—Reports from the Serbian front represent the situation as satisfactory for the Allies, says a Havas dispatch from Athens filed yesterday. The French have reached Gradsko on the railroad from Krivopal to Feles.
A Bulgarian attack against Krivopal with heavy forces of infantry and artillery is reported to have been repulsed after which the French occupied the village of Komental.
On the Anglo-French front northwest of Gueghel the advance of the allies continues and the Bulgarians now occupy only the village of Ourmandi in Serbian territory. There is no confirmation here of the report from German sources that the Bulgarians, heavily reinforced have renewed their attacks in the regions of Gueghel and Pelepe (Prilep).

WONDERFUL CURES OF BLINDNESS BY NEW YORK DOCTOR

(ASSOCIATED PRESS TELEGRAM)
New York, Nov. 9.—Dr. William M. Richards, who voluntarily treated 248 of the pupils in the city's blind school centers has reported to the society of medical jurisprudence that 95 of the pupils have been cured of blindness. Dr. Richards states that from his examination of the children he is convinced that two-thirds of the pupils in the schools for the blind are not blind but can be made to see well enough to read newspapers.
The physician declares that four-fifths of the \$3,000,000 annually expended here on the re-education of deficient school children can be saved by proper medical inspection and examination of the eyes by competent specialists.

Each pew in a church in a German city is heated by an individual electric unit, which can be regulated to suit the comfort of an occupant of the pew.

GOthic THE NEW ARROW

WITNESSED THE COLLISION OF TWO MACHINES

Walter "Cap" Wilson and William Devine were enjoying a spin out along the national road Sunday afternoon when their motor skidded suddenly and sent the riders down and embankment. Neither was hurt and just as they were about to mount their wheel a big touring car came down the hill near Brownsville and collided with a Ford car which had stopped in the road alongside another car going in the opposite direction. The Ford car, containing two people, was knocked off the side of the road but the occupants were uninjured. Some damage was done to the big touring car and the front axle was also badly bent but it was able to proceed into Zanesville under its own power.

FEDERAL LEAGUE CLUB OWNERS IN ANNUAL MEETING

(Associated Press Telegram)
Indianapolis, Ind., Nov. 9.—Federal league club owners were in Indianapolis today for the annual meeting of the league which was expected to convene early in the day. It was believed that only routine business would be transacted, but they were expected to discuss negotiations for peace with "organized" baseball at a meeting to be held in the next few days in French Lick, Indiana, or in Chicago.

It was reported that Charles Comiskey, owner of the Chicago Americans, Jacob Ruppert of the New York Americans and a representative of the New York Nationals were among those who had made hotel reservations for the latter part of the week at French Lick. This was taken by some of those interested to mean that the Federal leaguers will go to French Lick to discuss peace with the representatives of "organized" baseball.

The teeth in a gigantic moose skull found in the sand of a Wisconsin creek bottom have an estimate value of \$50 apiece.

INFLUENCE

OF THE DEVELOPMENT OF SUBMARINES IN BEING FELT TODAY

And Diplomats and Lawyers Must Recognize the New Conditions Imposed.

(Associated Press Telegram)

London, Nov. 9.—Considering the American note from the viewpoint of modern development of submarines and the influence it exerts on sea law, the naval correspondent of the Times, says lawyers and diplomats must recognize that new conditions are thus imposed.

"But unfortunately," he adds, "I find as a seaman, little indication of this new manner of looking at the subject in the American note."

Referring to the contention that there is no difference between examining a vessel of 1,000 or one of 20,000 tons except difference in time required, the correspondent observes:

"Time is the essence of the problem. We cannot afford to have our war vessels hanging about exposed to submarine attack while suspected ships are being searched and those naval experts who advised the Washington government cannot have had any experience with the particular danger which awaits boarding vessels. It would be suicidal if our authorities ignored the threat of the submarine and its bearing on the necessities of war."

"The submarine has made necessary new methods of offense and defense not only for war vessels awaiting an opportunity to give battle, but for those engaged in executing their belligerent rights. Had submarines been in use during the American civil war, northern cruisers could not have enforced the blockade of southern ports in the way they did."

Without exaggerating the qualities of the submarine, it may be recognized that in favorable circumstances and used in sufficient force, it can effectively establish a blockade; such a blockade, at all events, as has been accepted in the past without protest as effective."

In a special article discussing the note, the Standard says the novel interpretation of the rights of neutrals to carry goods into the ports of other neutrals contiguous to belligerent countries cannot be accepted by Great Britain in the form submitted by the Washington government, whose contentions open wide the door for a diplomatic discussion which may well occupy the foreign office and the state department for months to come.

A vast amount of research will be required, the Standard believes, to meet the new points thus raised. In fact, it says, a practical solution of the problems presented hardly can be reached at all while a state of war continues, but in the meantime the note "will have achieved its purpose of putting on the record the mature opinion of the American government and with this action nobody on this side of the Atlantic will desire to cavil."

DENIAL

MADE BY GERMANY OF ANY IMPLICATION IN ALLEGED PASSPORT FRAUDS.

Note Received in Answer to An Inquiry Made By United States State Department.

(Associated Press Telegram)
Washington, Nov. 9.—Emphatic denial that German officers "prepared false American passports and handed them to agents," as is alleged to have been testified before English courts, is made in a note from Germany, which state department officials had before them for consideration today.

The communication is in reply to representations on the subject from the American government. Testimony accusing the German officials is alleged to have been given by Robert Rosenthal and George T. Breckow, when tried in England as spies.

The note expresses doubt that such testimony ever actually was given and says that if given, it must be assumed that Rosenthal and Breckow were induced to do so by threats, promises or other pressure.

It also suggests that a false passport found on Breckow probably was issued by one of "certain individuals in occupied territory and also in neutral countries" who have endeavored to make a trade of selling such papers at a good price.

CURES RHEUMATISM AND BOWEL TROUBLE

Twenty-five Cents Worth is Plenty; Try It! Take Harmless, Soothing Trex for Just 3 Days.

Then no more stinging rheumatic pains; good-bye chronic miserable constipation; no more sore kidneys nor aching back. Trex is wonderful! Acts right off. Trex induces natural drainage of the entire system; promptly opens your clogged up kidneys, liver and bowels; cleans the stomach of fermenting, gassy foods and waste; dissolves out irritating rheumatic poisons; relieves feverishness, headaches, dizziness and constipation misery. Don't stay "knocked out" any longer. Get this quick relief today. 25c at Frank D. Hall or sample direct from H. B. Denton & Co., (Not Inc.) Beardstown, Ill.

New York City has received the first of the rapid fire guns to be mounted on her police boats. Their attention will be devoted not the the navies of the world, but to river pirates.

Expert Advice For the Automobile Owner

Queries and Replies Covering Matters of Importance to the Man Who Runs a Car

If the hub of a wheel is not perfectly centered—that is, if it is one-eighth inch nearer the circumference on one side than on the other—it will unbalance the car? How can the hub be turned?

Eccentricity of the hub would cause undue strain on the wheel bearing, increase tire wear on that side, cause unpleasant riding and perhaps injure the axle shaft. If it is in the front it will make steering hard also. The best plan is to get a new hub or have the worn one trued in a lathe. It might be possible to have it bushed. Consult a good repair man, as only an examination can tell exactly what should be done.

Can you give me a good recipe for a top dressing for imitation leather top?

A good recipe for an imitation leather top is composed of six parts of spermaceti, eighteen parts of beeswax, five parts of asphalt varnish, five parts of black vine twig, two parts prussian blue, one part nitrobenzol, one part powdered borax and sixty-six parts oil of turpentine. The wax is melted and the borax added, after which the mixture is stirred until a jellylike mass is obtained. In another pan the spermaceti is melted, the varnish, which has been previously mixed with the turpentine, is added and the mass stirred well and added to the wax mixture in the other vessel. The color is the last ingredient added, this having been previously rubbed smooth with a little of the mixture. The material is applied with a brush about once a week in small quantities and is wiped well with a soft cloth to polish after application.

How can the bonnet of a car be raised when it has external exhaust manifolds?

There are two ways of doing this. Either the side panel of the hood can be cut away so that it will slip down over the pipes, or else the hood can be made in three separate parts. In this case the side panel is hinged to the frame and opens outwardly.

Would a 4 by 4 1/2 motor be as flexible and economical as a 3 1/2 by 6 inch? If not, why?

It may or may not. The motor dimensions do not necessarily decide the ability of a machine to be low in fuel consumption. The flexibility and economy of one motor may be better than another against all theory as regards bore and stroke. It is safe to assume, however, that the average long stroke motor is considerably more flexible than a short stroke motor of the same design.

Will you please advise me the best method of sinking a galvanized iron drum for the purpose of underground storage of gasoline?

The best method of sinking a galvanized iron drum for the purpose of underground storage of gasoline is to line the well in which the tank is to lie with some hard material, such as brick or concrete, that will not sink unequally afterward and put strain upon the tank connections. There are many methods suggested by different companies in this business. One company states that the best method of sinking such a drum, both as regards the life of the drum and cheapness, is to paint the tank thoroughly with a good asphaltum paint or smear thoroughly with tar. After the hole for the tank is made put in this either a tarred paper or burlap, smearing the tank thoroughly with asphaltum or tar and then folding it over the burlap or tarred paper. The asphaltum or tar is again daubed over the tank after this is done, after which the ground is filled in, and, according to the estimate of this company, the tank should be good for fifty or a hundred years.

What is a good way to eliminate squeaking springs?

Flake graphite introduced between the leaves of the springs kills the squeak and seems to last indefinitely. The reason for its success is that it clings to the surface of the leaves and puts a veneer of graphite all over them. This prevents metal to metal contact.

The way to apply the lubricant is as follows: Jack up the car so that all weight is off the springs and spread the leaves apart with a screwdriver. Now dust the leaves as thoroughly as possible with flake graphite, using a feather. You will find when you come to drive your car, even over the roughest roads, that spring squeaking has all disappeared.

Is it practicable to use shellac on rims to prevent rusting?

If you painted your rims with shellac you would find that it peels off in a short time. For this purpose graphite paint or even ordinary paint would be much more satisfactory.

How can I retain the glossy finish on the body of my car?

Wash the body with slightly warm water and when dry give well rubbed in application of a liquid veneer with cheesecloth. As a result the body retains its gloss, although run practically every day in the year and in all kinds of weather.

If there should be a break in the ground wire how would the motor act and how could I find the trouble?

What will happen when a ground wire breaks depends on the function of the wire. If it carries current when the ignition system is in operation then its breakage will result in the motor coming to a stop, but if the wire is used to short circuit the magneto in order to stop the motor then its breakage will not affect the running of the engine. When the switch is brought to the off position the motor will not stop, and therefore some other means will have to be employed to bring the motor to rest.

As a rule when this occurs the trouble is easily located. The broken wire is indicated by the stoppage of the motor or its continued operation after the switch has been opened, as the case may be. The broken wire should be easily found by inspection unless, as sometimes happens, the breakage occurs inside the insulation.

What are the disadvantages of a semiautomatic rear axle?

In the semiautomatic rear axle the shafts must support the weight of body, frame, etc.; take torsional stresses and turn the rear wheels. The shafts cannot be removed without difficulty and then only when the wheels are removed and the housing jacked up.

Will you please tell me whether a cylinder should leak compression past the rings when stopped on dead center? If it should not leak, how do you remedy this?

The rings should be tight enough so that no appreciable loss of pressure will occur for, say, a minute, but it cannot be expected that the pressure will stay there indefinitely when the piston is stopped on dead center. From the way your question is worded it seems that you have turned the motor over until one of the pistons has reached the end of the compression stroke and that you left it there for a few moments at least. If, however, we have misunderstood you and the fact actually is that when you turn the motor over slowly without stopping the pressure decreases then you have a leak. It may not be the fault of the rings, however, but due to the valves. If the trouble is due to leaking rings they must be replaced, and if the pistons and cylinders are very badly worn it may be necessary to bore out the cylinders and fit larger rings.

Before going to the trouble of tearing down the motor and examining the pistons and rings remove the exhaust valve and note whether it is carbonized or pitted. If so it must be ground. Also note whether there is any clearance between the valve stem and the push rod. There should be sufficient space to insert a piece of writing paper, and if there is not the push rod must be adjusted by loosening the lock nut, which is the lower one, and then turning the upper nut to the right. If there is no clearance the valve will be held off its seat and leakage will occur. If the exhaust valve is found to be in good condition examine the inlet valve.

How is a canvas strip used to pull a car out of the mud?

The canvas strip is supplied with cords at either end and is tied to a stake at the front and the rear tied around the tire. When the wheel starts to slip it carries the canvas with it, and the latter is wound upon the tire, the car coming forward at the same time.

I would like to know what causes a dull knock in my engine running slowly when idle. With both throttles retarded, the valves in good shape and the connecting rods tight this knock seems to be in the fore part of the engine.

The knock is due to some loose part, which must be found by process of elimination. Probably you will find this knock by examining the main bearings for looseness, the flywheel connection and the crank shaft, which may have become flattened. If the pistons are worn so that they have become loose a knock of this kind may also be given by the slapping of the pistons against the cylinder walls.

In removing carbon from gasoline engines should denatured alcohol be used while engine is hot or cold? How much to each cylinder, and how long should it remain in cylinders?

Apply the alcohol when the motor is hot for the reason that the action of the alcohol is merely to dissolve the gummed oil which binds the particles of carbon together into a hard, solid mass, and when the alcohol is hot it dissolves the oil more readily. The cylinder should be filled with alcohol so that it will come into contact with every part of the carbon. It is best to do one cylinder at a time. Bring the piston to top dead center on the compression stroke, as the valves are then closed. Fill the cylinder with alcohol and allow it to stand until the carbon is softened. How long this will take depends on how hard the carbon is. One hour may be sufficient and then, again, it may be necessary to allow it to stand overnight or possibly twenty-four hours.

POTATOES!

ENORMOUS CROP RAISED IN OHIO ACCORDING TO STATE BOARD'S REPORT.

Much Lower Acreage of Wheat Has Been Sown Account of Rainy September.

(Associated Press Telegram)

Columbus, Nov. 9.—Ohio raised a potato crop this year that will be sufficient to give to every person in the state, men, women and children, about a bushel and a half of the tubers. The total crop as estimated by the state board of agriculture in the November crop report given out today, at 7,014,256 bushels. They were raised on 96,453 acres, averaging 73 bushels per acre.

The cold rainy September was wholly unfavorable to the work of wheat seeding and in consequence in spite of the probability that the war will cause high wheat prices for the next year or two, the farmers of Ohio will have a much lower acreage of wheat for the harvest of 1916 than for that of the current year. 1,930,111 acres were harvested this year, and only 1,592,129 acres have been sown for the next harvest—\$2 per cent of this year's acreage.

The condition of the growing wheat is none the best at this time, state board estimates being only 86 per cent of a full average condition for this time.

The same general condition is reported also for rye. The harvest of 1915 was taken from 19,034 acres, while only 16,648 acres or 87 per cent of that acreage has been sown for the coming harvest. The rye condition is put at 91 per cent.

The crop prospect for the 1915 crop is estimated now at 92 per cent of a full average which makes it a fairly good yield. The cloverseed yield is estimated at 45 per cent of a full average.

EBBETS PREDICTS EARLY PEACE PACT WITH FEDERALS

(Associated Press Telegram)

San Francisco, Nov. 9.—Peace soon will be declared with the Federal league on terms "highly satisfactory to organized baseball," Charles H. Ebbets, president of the Brooklyn National league club said on his arrival here today to attend the convention of the National Association of Professional Baseball Leagues.

Ebbets denied he had any message from either the National or American league to the minor organizations. He is the only representative of the major leagues in this city, but others are expected.

Indications were that the convention which opens today will be largely attended.

Fulton, 120 Union St. Union News Co., Union Station.

ESTABLISHED IN 1820

Entered as Second Class Matter March 10, 1882, at the Postoffice at Newark, Ohio, under Act of March 4, 1879.

National Apple Day will be observed by the boys by plugging one through some neighbor's shed window.

The autumn openings for men consists mostly in sending their wives up attic to take last winter's suit out of the moth balls.

It seems to be the first item of the day's newspaper work at Washington every morning to call up Margaret Wilson and ask her if she is engaged yet.

It is claimed that the automobile habit is a menace to public health because it leads people to give up walking. But just think of the splendid exercise in jumping enjoyed by the great mass who still do not own machines.

Look at Ada.

The reputation of the work of the present state administration at Tuesday's elections was complete. The rejection of two of the Williams seemed a plain recall of Willis. But the whole blow did not fall until detailed returns were received. Then was seen indeed how great the fall. Ada, Willis' home, rejected the McDermott law passed by Willis, supported by him and by the Rev. Alfred Edwin Smith, D. D. It gave a majority of 23 votes against the law and for the Cox law, and last fall in Ada every vote but 12 was cast for Willis. This is some reversal of form indeed. To make matters worse, if possible, Ada also elected a Democratic mayor.

Secret of Athletic Success.

The remarkable record of the two Boston baseball teams, which between them have captured the world's series championship three out of four successive years, has a lesson for any town, college, or school that wants winning athletic teams. The secret of success is support.

Successful teams are not run for love or fun. An amateur team must have costly coaches and equipment, and a professional team must have these high salaries also. Boston has captured these pennants simply because the town is base ball daft and enormous crowds turn out and back the team, both with their lungs and their admissions. This stirs the players to do their best, and makes possible the purchase of the best talent in the field.

If an educational institution or a town falls down at foot ball and base ball, the trouble is not always the players. It is more often with the community they represent. There are many people who will sour on a team and stay away if it loses a game or two. But where a team has an enthusiastic bunch of rooters behind it, who are loyal through both victory and defeat, sooner or later it is apt to make a record.

The Fresh Air Habit.

A text-book on physiology used some years ago in many public schools, stated that sufficient ventilation for a sleeping room was provided by a single window opened one each for each person. Most people would choke in such a room now. Children today are taught even in cold climates, to sleep with windows open. Office and factory workers find the night the one chance when they can have access to invigorating air.

An illustration of the modern feeling about fresh air was given the past week in Chicago. Fresh air coaches were run on the elevated trains, with windows wide open, to protest against stuffy cars.

The fresh air cars were reported very popular.

Still there are a lot of people left who are fussy about fresh air. Even with temperatures up to 70, they fear the least stirring of air and live in terror of drafts. They begin to shiver the moment the thermometer gets down around 72. They look around crossly to see if some one has left a window open by a small crack. This is often the case with women workers in offices. They wear flimsy summer waists throughout the cool weather, and expect the rooms to be heated to fit their flimsy raiment.

The people who are most fearful of catching cold from fresh air are the very ones who suffer most from this cause. Arctic explorers never have this ailment. Out door workers in cold climates are commonly free from it. It is the hot house life of unventilated stores and shops that inflames sensitive nasal passages. A room where a number of people work together usually has to be heated to suit the chilliest and thinnest blooded person of the whole lot.

If school children are sluggish, let the teacher throw the windows open, and declare a recess. Then see how the youngsters brighten up. It would pay business people to air out every other hour just to wake their clerks up.

Launching Girls in Society.

The social notes from the big cities about now have much to say about the "debutantes." There are many newspaper pictures of these resplendent creatures. They look like full blown society queens, not buds who but yesterday wore short dresses and played dolls. The shy violet has become a blooming rose. Smart society holds its young women much in reserve during the high and "prep" school age. Then they are thrown to the social lions with great eclat of parties and balls. The custom results partly from the eeling of many careful parents that quite young people should not have much social life. Also the chances of the matrimonial market may be better if a girl is not allowed to become too familiarly known.

Among the masses of the people so much in the life of a girl, apt to occur. She is "out" when she enters high school, perhaps before. But a mere slip of a girl she has her beaux and may trot around to dances every Friday and Saturday night, with occasional dissipation during the week.

Mothers who never had much social life are reluctant to shut down on youthful enjoyment. They think the young folks should go it while young. School brings chance, or society that may never return. Consequently in many communities the young people are in a perpetual whirl of late hours.

The doctors would say that young people, particularly young women are better off without much of this while in school. The physical need for growth and the strain of class work are exhausting. The girl who is tired of the simple pleasures of girlhood shows pale cheeks and languid motions.

It is a mistake for her to become a woman too early. Social success bought at a price of frail health comes high. There are many years to come. The home-loving girl with simple tastes has quite as much charm as the precocious miss who has cast aside girlhood before the normal age.

None Needed.

"She's her own chaperon." "How's that?" "You ought to see her face."—Michigan Gargoyle.

Respect vs. Derision.

(Chicago Herald.) Mr. Bryan came into the open last week and attacked President Wilson. In an interview he thus mous and rails over the Chief Executive's summons to the nation to see that its walls be strong:

The plan is not only a departure from our traditions, but a reversal of our national policy. It is not only a menace to our peace and safety, but a challenge to the spirit of Christianity, which teaches us to influence others by example, rather than by exciting fear.

Mr. Bryan is horrified, in the name of "the spirit of Christianity," by Mr. Wilson's proposals, all too modest as these are in the eyes of those who realize what a changed world has grown out of the European conflict.

No military or naval force we might develop would "excite fear" in the mind of any statesman in the world not drunk with rage or mad with fear. Unless so mad or drunk all statesmen would know, as Wilson said, that we had gathered that force, "not for attack, not for aggression, but merely to make sure of our own security."

What emotions have we excited by our armed forces, such as we have, in the armed camps of Europe and Asia? Not fear, but derision—contempt.

We are continually reminded how the rights of the unarmed must yield to the "necessities"—the convenience—of the armed. Our commerce is impeded, our citizens are slaughtered. Unarmed, we have obtained admissions of wrong done, but no assurance that wrong will not be repeated, if it shall become "necessary."

Should we continue to excite derision, and be treated with barely veiled contempt? What we need is not to excite fear; it is to excite respect. The only fear we wish to excite is that righteous fear out of which respect is given—the knowledge that it is unsafe to try too far our patience—the fear of righteous wrath which is the beginning of wisdom.

We may all agree with the Christian excellence of turning the personal cheek to the smiter. But are we required to turn it to drunkards and to madmen? Is it not our Christian duty to put them in bonds, lest they destroy the innocent, the helpless, the unoffending?

We live in a world of madmen in high places and of nations drunk with lust of slaughter. We have to consider what may be done by those clown with the blood-wine of "victory" and crazed by the demons of carnage into blindness to all right save that of the strongest.

The spirit of Christianity is beautiful, but Mr. Bryan holds no monopoly of it. Others share its treasure, and their piety is as sincere though less ostentatious. And how the patient Christian gentleman in the White House, always courteous under his gigantic weight of cares, shines by contrast with his critic!

Ferdinand of Bulgaria.

(The New Republic.) A really brilliant man, a scientist and a worker, he has persuaded himself that the magnificent development of the people whom he rules is in fact his own work. To give it a daring and dramatic completion, to make its quantity as impressive as its quality, to restore by his own gift of statecraft the old empire of the Bulgarian czars, that is the dream which led King Ferdinand into the avoidable adventure of the second Balkan war, and the still more reckless and incalculable gamble of his present policy. An aristocrat and a savant, he wielded from the first in intoxicating ascendancy over the simple peasant politicians with whom he had to deal. He was not popular; he was not trusted. He was often opposed, bluntly and stubbornly, as he Bulgarian manner is. He had against him all through his reign the suspicion and hostility of Russian diplomacy. He lived in a world of melodramatic plots, kidnappings, assassinations, secret treaties. He survived, and his survival gave him the assurance that by one expedient or another he could always play with his domestic opposition and his foreign adversary.

The truth is that it was the foreign adversary who saved him from the domestic opposition. If Russian diplomacy could have concealed its dislike of King Ferdinand, the Bulgarian people would long ago have got rid of him. But because Russian diplomacy too openly advertised its distrust and too incautiously suggested his removal, the Bulgarians rallied to him.

A Little Fun

Shutting Him Up.

Mrs. Clubb—But a woman's work is never done. Her Better Half—That's because they try to reform their husbands.—Michigan Gargoyle.

Nasty Thing. Clara—Do you know, Maud, Mr. Smithers paid me a great compliment last night? "No; what did he say?" "He said I was among the prettiest girls at the party."

"Yes, I noticed you were among them."

Surprised. Parson—I was glad to see you at prayer meeting last night, brother.

Village souse—Was that where I was? Well, I'm jiggered!—Dallas News.

A Dry Remark. Raised on a bottle and finished up in a bier.—Punch Bowl.

It Surely Is. "Pa, what is affection?" "Affection, my boy, is carrying three extra tires on an automobile that never gets more than four blocks away from a garage."—Detroit Free Press.

Spirit of the Press

Reward of Untidiness.

Sometimes it pays not to be too neat. A New York man, who had not cleaned up his desk in several years, found some forgotten Bethlehem Steel shares which he sold for \$18,000. If he had kept his desk tidy he probably would have unloaded them for about \$200.—Indianapolis Star.

Habit Too Strong.

The Navy League cannot really expect Mr. Bryan to withdraw his accusation that it is subsidized by the armor-plate-makers. The habit of attributing low motives to all who disagree with him is too firmly fixed.—Philadelphia Ledger.

Reactionary Women.

Women don't seem to be as public spirited as they used to be. A year or so ago they were sweeping the streets with their skirts.—Quincy (Ill.) Herald.

Internationalism.

The policy of pacifism does not interfere with President Wilson's policy of national defense. In fact, it is supplementary to it. It is simply an effort to get all nations together to agree upon an armed internationalism that will compel obedience to an international edict, just as the state of Ohio enforces its own laws, by force.

Let us hope the president will take steps at the coming session of Congress to bring all nations together, to agree upon a formula of peace. We know he is in favor of it but would shun the efforts to get the belligerents into it. But let the belligerents go until their war is over. The plan is not intended to interfere with the fight. We cannot stop that. It will have to take its course, like a spell of fever. But we can get ready an arbitrary scheme to which the fighting nations may be invited when they get through killing one another.

The lesson of the present war is never to have another, a conclusion that all nations will adopt when the matter is rightly presented, unless Schopenhauer and Nietzsche have them by the throats and are squeezing the souls out of them.—Ohio State Journal.

Pointed Observations

There was no political significance to Tuesday's elections. The fact that the Republicans got the best of them proves that conclusively. When the people are really interested in politics they wallop the Republican party.—Houston Post.

A man who committed suicide in New York left the kaiser a legacy of \$120. This might save off another war loan.—Baltimore American.

General Villa cheerfully announces that four more Americans, killed by mistake, have been buried by him. It would seem that Villa has buried enough mistakes to give him the honorary title of doctor.—Grand Rapids Press.

It is to be hoped that future generations will not giggle when they see an equestrian statue of George V.—Cleveland Plain Dealer.

The clutch of a certain motor is advertised to "eliminate all chatter in engagement." Electric have nothing of that sort.—Chicago Tribune.

The war has caused such a rapid rise in food prices in Germany that, if it keeps up much longer, the Germans will soon be living as high as we are.—Kansas City Star.

Evidence is becoming conclusive that old Mother Nature knew mighty well why she didn't put a waterway across the Isthmus of Panama.—Boston Transcript.

Off Agin, On Agin STRICKLAND W. GILLILAN

No, Woodrow isn't Foxy. Woodrow's not a politician. But he grabbed the vote of peace. When he worked like all demitition To make Europe's warring cease.

Woodrow's not a politician. But he caught the votes of war. When he gave his definition Of "complete preparing for."

Woodrow's not a politician. But he won the anti's, when He defined his firm position On the "votes for only men"

By declaring it "not national. But a wholly local question." The voters who were rational Thought well of his suggestion.

Woodrow's not a politician. But he clinched the female vote. When he took an intermission In his strenuous daily rote

To go over to New Jersey. When they had the election there And for suffrage, without mercy, Undenially declare.

Woodrow's not a politician. Nah! You're talking through your hat. But the "smooth ones" are all wishin' They were half as smooth as that!

Finnig'n Philosophy. Th' man who hires lab'bers has t' wurk harder than anny wurkman he has hired, kapin' the' others busy on th' job an' t'from bein' boneheads.

Easily Explained. "Why do you print so many patent-medicine advertisements in your paper?" "I have to do it to get money. The people around here do not pay up their subscriptions."

"Why don't they?" "The spend all their money buy-

Two More.

A. Worm is a theatrical manager in New York city. Take him fishing with you, Luke, and never mind the other bait.

Speaking geographically, Zanesville herself can contribute one also to Mr. McLuke. Erie Lake is a student at Zanesville high school.—Zanesville (O.) Signal.

Never Believe Anything a Newspaper Man Tells You.

Oh, Luke McLuke, we know you now! Listen, and I'll tell you how: A newspaper man the other day described you in this way: Your name begins with H, your hair is black, You are six feet tall, and that's a fact. You are married, I hate to tell. Though, perhaps, that's why you know us so well.

—Mrs. S.

Deep.

"Where have you been for the past month?" asked Smith. "I went down to see the lot I bought in Swampgrove a few years ago," replied Brown. "How big is your lot?" asked Smith. "They told me it was 200 feet long by 50 feet deep when I bought it," replied Brown. "But it isn't that deep. You can touch bottom with a fishing pole."

Wuff!

Lives of doggone pests remind us We can get into that class If we'll only leave behind us Fumes of onions when we pass.

The Wise Fool.

"Duty always comes before pleasure," observed the sage. "Yes," agreed the fool. "In the dictionary."

Good Intentions.

Oh, why should the spirit of mortal be proud? He goes out to take just one drink with the crowd. Each drink is the last one before he must run, And then he goes home with a beautiful bun.

—Cincinnati Enquirer.

Oh, why should the spirit of mortal be proud? The sphered goes out to get full with the crowd, But having revealed that his wallet is slim No crowd can be found to go sousing with him.

—Nebraska State Journal.

Paw Knows Everything. Willie—Paw, what is a genius? Paw—A genius is a man who can do everything but earn a living, my son.

Good Dope.

This life is brief. You can play your part. And all too soon you're dead; So always make sure that your heart Is softer than your head.

G-r-r-r-r-uff!

Dear Luke—if the Names Is Names club ever needs a dog catcher will you make room for C. A. Kerr of Portsmouth, O.?—A. N. J.

The Difference.

The changes made by time enrage, But there's no way to hermit; A woman hates to look her age, A fellow hates to feel it.

Is That So?

A man named Whitcotton was robbed of \$200 by a negro in Cincinnati.

but Luke McLuke was looking out for trouble spots in other parts of the world and neglecting his own garden.—Houston Post.

Advice.

Advised old Hiram Crabtree Hink: "See that you think just what you'll say Before you say just what you think."

Oh, Well, That's Different! Rufus Moran, Elkhart restaurant man, is named as defendant in a suit for damages filed by Mabel Adams, dressmaker. Moran, it is alleged, struck the Adams woman on the nose with his fist. Moran declared in defense that he mistook the woman for his wife.—Rochester (Ind.) Sentinel.

She's In.

Dear Luke—How about Miss Alina Bull of Washington Court House, O., for after dinner speaker at the Names Is Names club?—L. W. F.

Oh, Joy! The gent's prize was a pair of trousers and the lady's a large box of candy.—St. James (Minn.) Journal.

Names Is Names. P. Nutt lives at Sabinal, Tex.

Things to Worry About. It is only 46,000,000,000,000 miles to the nearest fixed star.

Our Daily Special. The bad dye young.

Luke McLuke Says: When a girl is acting as if nobody else ever had any clothes it is a sign that the clothes she is wearing are brand new.

The reason why a girl lets a man do all the talking when they are courting is because she is going to need all her jaw power for after the honeymoon.

Why is it that the man who has fourteen children refers to his better half as "the wife" and the man who has nothing but a poodle at home calls his wife "mother?"

Even if a woman can't develop a quarrel with any one, she never forgets to make up.

Every now and then you meet a guy who upsets your belief in the fact that all the mummies come from Egypt.

A woman never feels so comfortable as when everything she is wearing is too tight.

It may seem funny, but about the meanest thing a man can say about a man is that he "means well."

The average failure knows that it is due to his own overness and laziness, but it is easier to blame it on the trusts.

Every girl expects the young man to get down on his knees when he proposes to her. But it is a delightful surprise when she discovers that he merely takes her on his knees when he is ready to ask the question.

A woman can use perfume and make you respect her, but it is different with a man.

There isn't much sense to overlong engagements. But some girls get married before they know how to spell the names that their husbands give them.

Every now and then you see a bargain sale of soap, but the demand for perfume is always on the job.

Society

Mr. and Mrs. Charles Clutter delightfully entertained a number of young people Friday evening, November 5, in honor of their daughter Edith's sixteenth birthday. As presents she received many handkerchiefs. A delightful evening was spent in music and games. At a late hour a two course supper was served the following: Misses Elsie and Dorris Woodruff, Muriel and Grace Evans, Pearl and Mabel Bebout, Lucille Edman, Evah Harris, Ruth Woodruff, Effie Woods, Eva Little, Hazel Edman, Faye Howell, Ruth and Matilda Clutter and the hostess. Messrs. Jay Renel, Everett Orle and Daniel Bebout, Jay and Calum Woodruff, Jim Taylor, Gall Woodruff and Roy Clutter. Also Mr. and Mrs. Ed. Hayes and two children, Lucille and Harlen, Mr. and Mrs. J. B. Edman, Mrs. Lucinda Clutter and daughter Miss Evie Clutter.

On Monday evening, Miss Nellie Wave Underwood, entertained from 7:30 to 9:30 at her home 74 Vine street the following guests: Misses Kathryn Nicholas, Mabel Lawyer, Mabel Neitzelt, Mabel Neitzelt, Clara Crossley, Mildred Gamble, Messrs. Clyde Smith, Roy Welsh, Edgar Ruton, Raymond Sullivan, Bernard Ruton, Gilbert Ruton, Carl Crossley, Clarence Bonon. Games were played and Misses Kathryn Nicholas and Nellie Underwood rendered piano solos, after which luncheon was served.

Chrysanthemums in varying shades of pink adorned the home of Mrs. W. C. Gardner in Hudson avenue on Monday afternoon when Mrs. Gardner entertained with a bridge party. The game concluded with the favors being awarded to Mrs. Albert Rosebraugh and Mrs. John Brad-dock.

Mrs. Gardner's guests were: Mrs. Edwin Besuden, Mrs. J. Howard Jones, Mrs. J. M. Mitchell, Mrs. Geo. Flory, Mrs. Ella Updegraff, Mrs. Sarah Rosebraugh, Mrs. Harry P. Scott, Mrs. H. H. Scott, Mrs. Daniel Althool, Mrs. Frank Merion, Mrs. Channing Thompson, Mrs. Eliza Jackson, Mrs. Edward Pearsall, Mrs. Jesse Elliott, Mrs. W. H. Davis, Mrs. J. F. Irwin, Mrs. John Brad-dock, Mrs. M. M. Foott, Mrs. F. E. Corkwell, Mrs. W. S. Wright, Mrs. L. P. Franklin, Misses Mame Smucker, Irene Jones. The out of town guests were Mrs. Knight of Columbus, Mrs. Bowen of Columbus, Mrs. Albert Veitch of Miles City, Mont., and Mrs. Leon Weston of Withrow, Wash.

A ONE PIECE FROCK.

The Gary Schools Modern Ideals Realized

Gary, Ind., is not a large city. But it is likely one can see ideals of modern education realized more fully there than in any other place in the world.

There are gymnasiums and swimming pools in most of the buildings. There are a number of playgrounds about two acres each.

Moving pictures are exhibited in the school buildings free to the children and to the public.

All work is exceedingly practical. For instance, the boys in the turning department make their own baseball bats, Indian clubs, stools for the laboratories, and various articles for use in the home. In the paint shop pupils stain the teachers' desks and paint

Better Cake and Biscuits

In all receipts calling for baking powder, use Royal Baking Powder. Better and finer food will be the result, and you will safeguard it against a possible dangerous compound.

Look out for adulterated baking powders. Do not permit them to come into your house under any consideration. They may add an injurious substance to your food, destroying in part its digestibility. Doctors will tell you this and it is unquestionable.

Housewives are sometimes led to use inferior baking powders because of deceptive foaming or boiling tests or apparent lower cost, but there is very little difference in practical use, about one cent for a whole cake or pan of biscuits—a mere trifle when you consider the vast difference in healthfulness in favor of food made with Royal Baking Powder.

ROYAL BAKING POWDER CO.
New York

articles of furniture made in manual training classes. The laundry and sewing departments are run in conjunction and earn money which is utilized to paying instructors and helpers in these departments. To the cobbling department children bring shoes that need to be repaired, and pupils get practical experience. In the blacksmith shop pupils repair articles used by themselves or at their homes. They make the iron work for the playground apparatus, and shoe horses belonging to the school department. At the same time they are taught the principles underlying each kind of work.

There are laboratories for botany, physics, chemistry, electricity, bacteriology, and zoology. There are studios for music and art. All the regular subjects of instruction, such as arithmetic, German, Latin, history, and geography are taught in a practical way. For instance, banking arithmetic is taught by an actual state bank operating in the schools. This bank is under the state bank inspector the same as any other state bank, but pupils of the schools are officers and customers. They deposit money and draw on their accounts to pay for their luncheons, their book rentals, etc.—M. V. O'Shea in December Mother's Magazine.

THE SICK

The condition of Mrs. George A. Moriarity of Boston, Mass., who has been critically ill at her parents' home in Penney avenue, since July, is much improved and she is now able to receive callers.

Mrs. Helen Fox of South Fifth street was called to Ashland last week by the sudden illness of her daughter, Mrs. Otis Allen, formerly of this city. Mrs. Allen is now improving rapidly.

Mrs. Charles Campbell, who underwent a serious operation at the City Hospital, is convalescing.

NO DEMONSTRATION AGAINST CHINA WILL BE MADE BY JAPAN.

Kioto, Japan, Nov. 9.—Japan has assured the powers she has no intention of making a military or naval demonstration against China in connection with the pending negotiations for postponement of the re-establishment of a monarchy, if this change in the form of government should be decided upon.

According to a report current in Kioto, which is believed to be authentic, President Yuan Shi Kai intended to proclaim himself emperor of China on November 16, the day of the first coronation feast in Japan. The idea of the enthronement of Yuan Shi Kai simultaneously with the coronation of Emperor Yoshihito was displeasing to representative Japanese.

Getting Rid of Blackheads And Other Aids to Beauty

There is one simple, safe and sure way that never fails to get rid of blackheads and that is to dissolve them. To do this get about two ounces of plain powdered nerosin from any drug store. Sprinkle a little on a hot, wet sponge, rub over the blackheads briskly, wash the parts and cold water, dry thoroughly, and then apply freely a cream lotion made by dissolving one ounce of powdered zinc in a pint of hot water. This will give to the complexion that soft, velvety appearance so much admired and sought.

A soft, velvety complexion is the envy of every woman, and any woman can have her heart's desire if she will. Before retiring every night, wash the face, arms and neck with plenty of soap and warm water, dash on cold water, dry thoroughly, and then apply freely a cream lotion made by dissolving one ounce of powdered zinc in a pint of hot water. This will give to the complexion that soft, velvety appearance so much admired and sought.

AN AFTERNOON FROCK.

Golden brown pussy willow satin, net of a lighter shade, patches of metal embroidery and bands of skunk fur are the materials out of which this reception gown is fashioned. The crush satin girdle is held with a cluster of pink carnations. A brown velvet hat trimmed with fur and a metal flower go well with this beautiful gown.

LORD MAYOR OF LONDON ASSUMES OFFICE TODAY.

(Associated Press Telegram) London, Nov. 9.—Notwithstanding wet weather, immense crowds gathered today to witness the procession in connection with the inauguration of Lord Mayor of London of Sir Charles Cheers Wakefield.

The procession was longer than in time of peace, although it lacked the usual symbolic and historical pageantry.

Four captured German guns and the anti-aircraft corps of London with its guns, were conspicuous figures. Twenty-five hundred soldiers representing all contingents of troops now in England, were in line.

AUSTRIANS REPULSED.

(Associated Press Telegram) Cetinje, Montenegro, Via Paris, Nov. 9.—Repulse of Austrian attacks is reported in the official statement issued by the Montenegrin war office as follows:

"Important artillery engagements continued on the entire front November 7. The enemy threw forward his infantry in attacks at various points without attaining successes."

BOND ISSUE ILLEGAL.

Columbus, Nov. 9.—The issue of \$15,000 bond, in anticipation of receipts for health, safety and service department of Piqua was illegal, the state bureau of accounting declared today in a report on finances of that city. Such action constituted a virtual nullification of the Smith one-per cent law, the bureau held.

According to a London oculist, if white clothing for babies could be abolished, in a generation there would be a 20 per cent decrease in the number of persons with defective vision.

Personal

Captain and Mrs. John Hiser today are celebrating the fiftieth anniversary of their marriage.

Mr. and Mrs. Earl R. Deyo and daughter Helen of West Main street, have returned from a pleasant visit with friends at Nevada, O.

H. E. Stutz of Columbus transacted business in the city today. Mr. Stutz will leave in a few days for a trip to the Panama-Pacific exposition.

Dennis Connell left today for Lorain, O., and may make an extended visit at that place. Mr. Connell was formerly in business at Lorain.

Edward Shively of Coshocton is a business visitor in the city today.

Harry Gordon of Zanesville stopped over in this city last evening on his way to Chicago and spent several hours with friends.

Miss Lillian Cool of near Waverly, O., is visiting at the home of her uncle, John Cool and family in McKinley avenue.

Mr. and Mrs. Felix Ford of Newark, called at the home of Mr. and Mrs. Sereno Haynes of Granville, Sunday Mr. Thomas Guffy and son Forrest were also guests at the Haynes home on Sunday.

Mrs. Walter Robison of Wooster, O., is visiting her aunt, Mrs. George W. Keller of Cedar street.

Mr. and Mrs. Robert Rosel, Mr. and Mrs. Charles Scott, Marie and Russell Scott, attended the dedication of the Disciple church at St. Louisville, last Sunday. Miss Marie Scott sang a solo, which was greatly enjoyed.

DEMOCRATIC AID IN DEFEAT OF THE SPRAGUE LAW

(Associated Press Telegram) Columbus, Nov. 9.—Democratic congressmen and party leaders contributed \$1,763 to finance the referendum campaign against the Sprague congressional redistricting bill, which was rejected at the election last week, according to the statement filed today with the secretary of state by Democratic State Chairman W. L. Finley. He spent \$1,747 of the amount largely for printing, postage and advertising.

Among the contributors were: James Ross, Columbus, \$100; B. H. Heer, Dayton, \$75; A. W. Overmyer, Fremont, \$100; W. Durbin, Kenton, \$100; H. C. Claypool, Chillicothe, \$50; R. T. Michener, Bridgeport, \$300; Arthur Espy, Cincinnati, \$200; C. C. Benner, Akron, \$100; S. J. Black, Upper Sandusky, \$39; J. A. Key, Marion, \$75; E. H. Moore, Youngstown, \$25; J. H. Goetz, Wapakoneta, \$105; Vallee Harold, Portsmouth, \$15; George E. Kricker, Portsmouth, \$5; Wm. N. Inman, Cleveland, \$25, and Charles Bauer, Springfield, \$25.

CLEN DENING AT HIS DESK; HURST ALSO IS PRESENT

(Associated Press Telegram) Columbus, Nov. 9.—Ohio had four members of the state liquor licensing board today although the statute provides for only three. They were M. D. Rose, Frank Hay, Republicans; J. Edward Hurst, newly appointed Democratic member, and Byron M. Clendenning, Democrat, recently discharged by Gov. Willis. Clendenning refused to give up his office today when Hurst appeared to claim his job. The two exchanged friendly personal greetings, however, and Hurst was given a chair in the office of another member, while Clendenning retained his desk in a private office, pending the supreme court's determination of his status.

KILLED BY TRAIN.

(Associated Press Telegram) Marion, O., Nov. 9.—W. B. Shipman, 40, was killed today when struck by a Hocking Valley passenger train.

TREAT CATARRH BY NATURE'S METHOD

Every Breath of Hyomei Carries Healing Medicated Air to the Infected Membrane.

Nearly every one who has catarrh knows how foolish it is to try and cure it with sprays, lotions, and the like. Temporary relief may be given but a cure seldom comes.

Until recently your physician would probably have said the only way to help catarrh would be to have a change of climate; but now with a simple preparation called Hyomei you can carry a health-giving, climate in your vest pocket and by breathing it a few minutes four times a day successfully treat yourself.

The complete Hyomei outfit is inexpensive and consists of an inhaler that can be carried in the vest pocket, a medicine dropper and a bottle of Hyomei. The inhaler lasts a life time, and if one bottle does not give permanent relief, an extra bottle of Hyomei can be obtained at any time for a trifling sum. It is more economical than all remedies advertised for the cure of catarrh, and is the only treatment known to us that follows nature in her method of treating diseases of the respiratory organs.

T. J. Evans sold a great many Hyomei outfits and the more he sells, the more convinced he is that he is perfectly safe in guaranteeing to refund the money if Hyomei does not relieve.

The Good Southern Flavor

You can have waffles with the same wonderful flavor that makes Southern waffles so good.

Use Aunt Jemima's Pancake Flour—the pancake flour that has the milk already mixed in it. Only in Aunt Jemima's can you get the added flavor, and deliciousness, milk gives.

Serve Aunt Jemima's waffles to-morrow. See how exactly they give you the flavor that has made Southern waffles so famous.

AUNT JEMIMA'S PANCAKE FLOUR

Aunt Jemima's Buckwheat flour comes in white packages. Ask for it.

How To Eradicate All Superfluous Hair Advice By a Skin Specialist

The best means I have ever found for removing all signs of disfiguring growths of hair on the face, neck, arms, or hands is a new preparation called Mrs. Osgood's Wonder. I have recommended it in thousands of cases and I know personally of its ability to banish every hair forever. It cannot injure the skin or complexion and is quite inexpensive. You can get Mrs. Osgood's Wonder from T. J. Evans or any up-to-date druggist. Signed Money-Back Guarantee with every package. Do not apply this treatment except where total destruction of hair is desired.

There is a possibility that the people of Newark may soon have the privilege of hearing the famous United States Marine Band. This is the leading organization of its kind in the country. It consists of about fifty members under the direction of Lieut. Santelmann. John Philip Sousa formerly was director.

The band is rarely heard outside of Washington, but recently President Wilson gave special permission for a western tour. When a delegation of Southern and Western senators called on President Wilson and asked him to grant the United States Marine band a leave of absence to make a brief tour of the United States, they argued that while the people of Washington had the privilege of hearing this wonderful organization twice a week during the summer session at the White House grounds, a great body of American citizens in the interior of the country were deprived of the opportunity of listening to the finest military organization in the western hemisphere.

The argument convinced President Wilson and the band is making a whirlwind tour of the country under the business management of W. L. Radcliffe. The tour continues until November 22, during which time one hundred and four concerts will be given in as many cities. We hope that Newark will be fortunate enough to be one of the cities where the band, under the leadership of Lieut. W. H. Santelmann, will give one of its famous concerts.

Several Newark citizens are making every effort to arrange for a performance at Newark some time before November 22.

Two thousand persons appeared in silk at Paterson, N. J., recently at a parade to boom Paterson looms, hosiery, gowns, suits and in some cases, among the men, even hats were of that material. Thus is progress made toward fixing the high cost of living.

BANISHES NERVOUSNESS

Pats Vigor and Ambition Into Running, Tired Out People

If you feel tired out, out of sorts, despondent, mentally or physically depressed, and lack the desire to accomplish things, get a 50 cent box of Wendell's Ambition Pills at T. J. Evans today and your troubles will be over.

If you drink too much, smoke too much, or are nervous because of overwork of any kind, Wendell's Ambition Pills will make you feel better in three days or money back from T. J. Evans on the first box purchased.

For all affections of the nervous system, constipation, loss of appetite, lack of confidence, trembling, kidney or liver complaints, sleeplessness, exhausted vitality or weakness of any kind, get a box of Wendell's Ambition Pills today on the money back plan. Mail orders filled, charges prepaid, by The Wendell Pharmaceutical Company, Inc., Syracuse, N. Y.

West Virginia broke all previous records for coal production last year, with an output of 71,707,826 short tons.

REDUCTION IN RADIUM PRICE IS ANNOUNCED

(Associated Press Telegram) Pittsburgh, Nov. 9.—Radium at \$36,000 a gram instead of \$120,000 a gram has been made possible by the technical research work of the United States bureau of mines during the last year, according to Van H. Manning, director of the bureau who is in Pittsburgh inspecting the work on the new experimental station being constructed here. Mr. Manning said that the procedure by which the price of radium has been cut will be published within a few weeks and will mean thousands of dollars saved in all lines in which radium is utilized.

GEN. TUCKER'S REQUEST FOR RETURN TO ARMY RECALLS OLD DIVORCE SCANDAL

Mrs. Dolly Logan Tucker (left), Mrs. Myrtle Platt Tucker and Lieut. Col. William F. Tucker.

Lieut. Col. William F. Tucker, U. S. A., retired, whom Mrs. Dolly Tucker, daughter of the late General John A. Logan, divorced in July, 1909, has applied for reinstatement in the active list of the army, with the rank of colonel. When the first Mrs. Tucker secured her divorce she created a scandal by naming Mrs. Myrtle Platt as co-respondent. Mrs. Platt later married Lieutenant Colonel Tucker.

ONE CENT SALE

A NEW WAY OF INTRODUCING ADVERTISED ARTICLES

To the General Public—The First of the kind ever held in Newark.

A novel and interesting way of introducing and establishing a sale for advertised articles will appear in tomorrow's Advocate.

Mr. Frank D. Hall, the enterprising druggist of North Park Place, is using a full page of the Advocate announcing a "One Cent Sale," the first of the kind ever held in Newark. The sale is one introducing "The Rexall" remedies for which Mr. Hall has been the local agent for a number of years.

It has been a great "puller of trade" wherever it has been used. By the plan you secure two 25 cent articles for 26 cents, or two ten cent articles for eleven cents, or two 50 cent articles for 51 cents and so on.

The plan is indeed unique and yet a very simple one. The idea is to get into the hands of the buying public enough of an article so that they can give it a fair and impartial trial.

Once you are convinced of the merits of an article you will seldom change for another. This is Mr. Hall's idea about the "Sale." If he can get you to know of the merits of his goods he knows you will come again.

Mr. Hall said he would not realize any profit on this sale, but that is not the idea of the "One Cent Sale." The idea is to create a demand in the future for the articles advertised in this great "One Cent Sale."

Nearly every reader of the Advocate knows or has heard of Mr. Hall and knows that the goods he handles are goods that have merit.

If you have never tried some of the articles it will pay you to read the full page announcement in tomorrow's Advocate. Among some of the articles advertised are soaps, talcum powder, tooth paste, chocolate candies, creams for the face and hands, brushes, cigars and numerous other articles.

The word "knave" originally signified only a boy, then as most waiters and pages were boys, it was applied to male servants, and as not a few of these were of roguish habits, it finally came to mean a rascal.

Lightning never strikes twice in the same place, even for the man who works like thunder.

IF YOU ARE A DRINKING MAN

You had better stop at once or you'll lose your job. Every line of business is closing its doors to "Drinking" men. It may be your turn next. By the aid of ORRINE thousands of men have been restored to lives of sobriety and industry.

We are so sure that ORRINE will benefit you that we say to you that if after a trial you fail to get any benefit from its use, your money will be refunded.

When you stop "Drinking," think of the money you'll save; besides, sober men are worth more to their employers and get higher wages.

Costs only \$1.00 a box. We have an interesting booklet about ORRINE. We are giving away free on request. Call at our store and talk it over.

Frank D. Hall, N. 2000 BURLING

GIRLS IN BAD HEALTH.

Hundreds of girls go to work day after day, afflicted with some ailment peculiar to their sex, dragging one foot wearily after the other, working always with one eye on the clock and wishing for closing time to come. Every such girl should rely on Lydia E. Pinkham's Vegetable Compound to restore her to a normal healthy condition, then work will be a pleasure. For forty years this famous root and herb medicine has been preeminently successful in controlling the diseases of women. Why don't you try it?

25 Years Ago

(From Advocate, Nov. 9, 1890.) Mr. Morris Bitting and daughter, Miss Margaret of Cleveland, who have been visiting the former's sister, Mrs. J. W. Adams, and attending the Furley-Adams wedding, have returned home.

The B and O is experiencing a heavy run of freight in every direction in and out of the city.

Tomorrow is observed all over the world as a day of prayer for young men. Special services will be held in the churches and an evangelistic meeting will be held at the Y. M. C. A.

The Delating Club of the Newark high school held their first meeting at the home of the president, Mr. Joe Miller last night. The subject was the McKinley tariff bill. A paper setting forth the merits of the bill was read by Miss Linnie Ball and was answered by Miss May Perkins. The discussion continued to 9:30 o'clock.

15 YEARS AGO TODAY.

(From Advocate, Nov. 9, 1900.) You can shoot squirrel and quail tomorrow if you can get permission of the man on whose premises you find them.

Richard Evans, an employee at the Hesse glassworks, was injured in a fall from his bicycle this morning.

Miss Zebba Howell, who has been sick, is recovering.

Mr. John C. Sullivan, for many years superintendent of the old Blandy machine works, but now of Boston, Mass., was calling on Newark friends today.

Mr. and Mrs. Joseph Great, just married, left for their future home in Grand Rapids, Mich., today.

Mr. and Mrs. J. T. Wilson of Wheeling are visiting friends in Newark for a few days.

The World War a Year Ago Today—Nov. 9.

The famous German cruiser Emden destroyed at Cocos Islands, Indian ocean, by the Australian (British) cruiser Sydney. Emden's loss, 200 killed, 30 wounded. On the cruiser Sydney 4 were killed and 15 wounded.

Russian advance toward Berlin was within twenty miles of Thorn, Prussia; also made progress toward Cracow.

Lord Kitchener announced that 1,250,000 English volunteers were in training to join the active forces in France.

According to figures just issued by the municipal statistical bureau, the total consumption of meat in the City of Newark during the year 1913 was 46,439,293 pounds. Of this total 329,609 pounds were horse-flesh.

4 ASSOCIATIONS CIVIC EXPERTS MEET NEXT WEEK

NATIONAL AND STATE MUNICIPAL LEAGUES WILL BE IN DAYTON.

City Managers and State Civil Service Association Also to Hold Convention.

(ASSOCIATED PRESS TELEGRAM) Dayton, O., Nov. 9.—Four associations interested in civic affairs, holding their meetings simultaneously here next week, are expected to bring together probably the largest number of students of city problems that have gathered in recent years. The program was announced today for meetings of the National Municipal League, City Managers' convention, Ohio Municipal League and Ohio Civil Service Association. Sessions will open Monday and continue through Friday.

City finances will be the principal subject for discussion at the meeting of the Ohio Municipal League to be held Wednesday morning, Nov. 17. Basil Wadsworth, president of the Cleveland Chamber of Commerce, will deliver an address on the subject, "A plan of a bon for the ensuing year to secure statutory reform of the tax system."

W. T. Donaldson, assistant state budget commissioner, will discuss this question, "Should the Smith one per cent law be repealed or should a new source of revenue other than increased taxes on property be sought?" C. E. Richter, director of the Dayton bureau of municipal research, will give facts about city revenues and expenditures.

It is said to be probable the Ohio Municipal League will adopt some definite plan of action for securing financial relief for cities, either through the use of the initiative in 1916, or through legislation in 1917.

William Dudley Louke, president of the National Municipal League and former United States civil service commissioner, will be the principal speaker at the meeting of the Ohio Civil Service Association Wednesday, Nov. 17. He will discuss "The merit system in state offices."

Business supervision of city governments, and means of making citizens take greater interest in municipal affairs are the main subjects for discussion by the National Municipal League, which will meet Nov. 17, 18 and 19, and by the City Managers' Association, whose meeting is to be Nov. 15, 16 and 17.

Ohio men on the programs of these associations are: Henry M. White, city manager of Dayton; Charles E. Ashburner, city manager of Springfield, and president of the Managers' Association; Fowler S. Smith, purchasing agent for Dayton, and L. D. Upson, former director of the Dayton bureau of municipal research, and President Charles W. Dahmer of the University of Cincinnati.

No, Maude, dear the girl who is stuck on her shape isn't necessarily a stickler for good form.

Thousands Take

this mild, family remedy to avoid illness, and to improve and protect their health. They keep their blood pure, their livers active, their bowels regular and digestion sound and strong with

Glass of Hot Water Before Breakfast a Splendid Habit

Open sluices of the system each morning and wash away the poisonous, stagnant matter.

Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, hasty breath, acid stomach, lame back, can, instead, both look and feel as fresh as a daisy always by washing the poisons and toxins from the body with phosphated hot water each morning.

We should drink, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to flush from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour bile and poisonous toxins, thus cleansing, sweetening and purifying the entire alimentary tract before putting more food into the stomach.

The action of limestone phosphate and hot water on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a refreshing appetite for breakfast and it is said to be but a little while until the roses begin to appear in the cheeks. A quarter pound of limestone phosphate will cost very little at the drug store, but is sufficient to make anyone who is bothered with biliousness, constipation, stomach trouble or rheumatism a real enthusiast on the subject of internal sanitation. Try it and you are assured that you will look better and feel better in every way shortly.

STOP CATARRH! OPEN NOSTRILS AND HEAD

Says Cream Applied in Nostrils Relieves Head-Colds at Once.

If your nostrils are clogged and your head is stuffed and you can't breathe freely because of a cold or catarrh, just get a small bottle of Ely's Cream Balm at any drug store. Apply a little of this fragrant, antiseptic cream into your nostrils and let it penetrate through every air passage of your head, soothing and healing the inflamed, swollen mucous membrane and you get instant relief.

Ah! how good it feels. Your nostrils are open, your head is clear, no more hawking, snuffling, blowing; no more headache, dryness or struggling for breath. Ely's Cream Balm is just what sufferers from head colds and catarrh need. It's a delight.

A Wonderful Antiseptic.

Germs and infection aggravate ailments and retard healing. Stop that infection at once. Kill the germs and get rid of the poisons. For this purpose a single application of Sloan's Liniment not only kills the pain but destroys the germs. This neutralizes infection and gives nature assistance by overcoming congestion and gives a chance for the free and normal flow of the blood. Sloan's Liniment is an emergency doctor and should be kept constantly on hand. 25c., 50c. The \$1.00 size contains six times as much as the 25c.

Shrapnel, so called after their inventor, the British General Shrapnel, are thin cases of tough steel containing a large number of bullets—in the British artillery 266 and in the French and German 300.

Don't burn your bridges behind you if you have any suspicion that you may have to walk back.

Thousands have this disease—and don't know it

You may be afflicted with that dread disease of the teeth, pyorrhea, and not be aware of it. It is the most general disease in the world! The germ which causes it inhabits every human mouth—your mouth, and is constantly trying to start its work of destruction there.

Don't wait until the advanced stages of the disease appear in the form of bleeding gums, tenderness in chewing and loose teeth. You can begin now to ward off these terrible results. Accept the advice dentists everywhere are giving, and take special precautions by using a local treatment in your daily toilet.

To meet this need for local treatment and to enable everyone to take the necessary precautions against this disease, a prominent dentist has put his own prescription before the public

in the convenient form of Senreco Tooth Paste.

Senreco contains the best corrective and preventive for pyorrhea known to dental science. Used daily it will successfully protect your teeth from this disease. Senreco also contains the best harmless agent for keeping the teeth clean and white. It has a refreshing flavor and leaves a wholesomely clean, cool and pleasant taste in the mouth.

Start the Senreco treatment tonight—full details in the folder wrapped around every tube.

Symptoms described. A 25c two oz. tube is sufficient for six or eight weeks of the pyorrhea treatment. Get Senreco at your druggists today, or send 4c in stamps or coin for sample tube and folder. Address The Sentanel Remedies Co., 504 Union Central Bldg., Cincinnati, Ohio.

Craton's Drug Store

Says Woman's Beauty Depends Upon Health

Health and Vigor Necessitate Regulation of Organs of Elimination.

Skin foods and face creams and powders cannot make a woman beautiful, because beauty lies deeper than that—it depends on health. In most cases the basis of health and the cause of sickness can be traced to the action of the bowels.

The headache, the lassitude, the sallow skin, and the lusterless eyes are usually caused by constipation. An ideal remedy for women and one that is especially suited to their delicate organisms, is found in Dr. Caldwell's Syrup Pepsin, a mild laxative compound, pleasant to the taste and free from opiates and narcotic drugs of every description. Miss Gertrude Jordan, 522 North Liberty St., Indianapolis, Ind., says: "It is simply fine; I have never been able to find anything to compare with Dr. Caldwell's Syrup Pepsin. I started using it in drug stores for fifty cents a bottle for the baby and now it is my life, a trial bottle can be obtained, family standby in all cases where free of charge, by writing to Dr. W. B. Caldwell, 454 Washington St., Dr. Caldwell's Syrup Pepsin is -old Monticello, Illinois."

MRS. GERTRUDE JORDAN.

"OWLS CALLED WISE BECAUSE SILENT; EXAMPLE FOR ME," SAYS BLANCHE SWEET

Blanche Sweet.

Though she is familiar to millions, Blanche Sweet, the screen star, has never appeared before an audience. She has never spoken from a theater stage. She could do it if she wished, no doubt, but as Miss Sweet says: "Owls are considered wise because no one ever heard them speak. Guess I'll follow their example."

FILM STAR STARTLES COUNTRY SIDE WITH HER FREAKISH CAR

Miss Grace Darling at the wheel of "Silver Bird."

Miss Grace Darling, the popular film star, has one of the most freakish autos on earth, with which she startles the country side on her long tours. It is built of alternate two-inch strips of mahogany and white holly, while the deck is finished in bird's eye maple. She has christened her machine "Silver Bird."

In Milady's Boudoir

By Gwen Sears

Many business girls become very stout because of their constant sitting posture and lack of strenuous exercise. As a rule, the business girl is too mentally tired when she gets home, to take up a course of calisthenics and in the morning before starting for work, there is no time to it.

While in the office, and without interfering with her work or the work of any one else the business girl might try a few exercises described in the following suggestions. Lay a book on the floor and try to pick it up without bending the knees. Do this many times a day and soon it will become an amusing as well as healthful accomplishment. It is a very good way to reduce the hips.

Whenever the opportunity presents itself stand instead of sitting. If you are required to sort papers, or to look up names and figures, or to answer the telephone many times a day, try to do it all standing. When filing, or reaching for books, try taking a long breath and holding it until you have drawn down your arms again.

If you are obliged to hang on to a strap all the way home in the car just remember that it develops the muscles of your arms. Above all always keep cheerful.

COSMETICS NOT NEEDED; FEEL THE SKIN INSTEAD

One reason mercurized wax is so strongly recommended is that it really takes the place of several different cosmetics, saving time, patience and expense. It is better than any cleansing cream, better than any massage cream and better than any rouge for accomplishing the results for which such articles are used. As the wax actually absorbs an old, faded or discolored cuticle, a little each day, the underlying skin which gradually appears is clearer, softer, healthier and more youthful than any cosmetic-made complexion. Spreading on a thin coat of this wax at night, washing it off in the morning with soap and water, a marvelous transformation takes place. There is nothing better to remove freckles, moth patches, liver spots, sallowness, blotches, pimples or blackheads.

For wrinkles and loose, saggy skin, a face bath made by dissolving 1 oz. of powdered GITS-IT in 1 qt. of water is the best thing that can be recommended. This is remarkable skin-tightener and tone properties.

Rippling Rhymes

Paying Rent.

For seven years in discontent, I leased a humble cot; it kept me busy paying rent—it also kept me hot.

Each month for seven weary years, I coughed up twenty bones; I handed out the coin with tears, and deep, heart-rending groans. The landlord lived in princely state, and when I went to him, and said, "Old scout, the garden gate is badly out of trim, the doghouse roof lets in the rain, and floods our measly hut, each widow has a broken pane, the doors will not stay shut," he answered me, "The times are bad, and growing worse, I trow, I simply cannot spare a cad to fix that cabin now."

At last I bought a lowly shack, that measured two by four, with rain-pipes running up the back, a latch-string to each door. Now if the roof is sagging down, or holes are in the stairs, I chase no landlord through the town, beseeching for repairs. I take my Jimmy and my ax, my shotgun and my spade, and plug the holes and fix the cracks, without a landlord's aid. And there's a pleasure simply great, a sacred sort of glee, in working round your own estate, however small it be.

Every Day Etiquette

"Please tell me what are included in the bride's expenses," demanded Nancy.

"Her expenses include the engraving and sending of the invitations, her dress, music and flowers at the church, carriage for herself and one for the bridesmaids, the reception or breakfast, and the gifts to the bridesmaids," answered her friend.

Nearly 11,000 women have enrolled as female police in Italy and they will undergo special physical training and wear uniforms.

DOG AND CAT HOSPITAL AT CLEVELAND, O.

Human beings have their aches and pains and after remedies are taken the pain goes. Dogs and cats are not immune from pain or disease, and as these animals are for a purpose, we should not treat them any other way than human.

Twenty-nine years ago Dr. Wm. F. Stanforth of Cleveland, had an idea great good could be done to the most faithful of all animals, the dog, and the most playful of all animals, the cat. This idea was put into effect, and up to the present time more than 1,000 dogs and 8,000 cats have been treated by this specialist. His dog and cat hospital was the first in the land, and from nearly every state in the union he has attended to the wants of these pets.

Imagine teeth being extracted and filled, cold crowns placed thereon and bridges made. The little creatures know what a kind word is, and when they are relieved of pain they return the favor shown by expressing appreciation in more than one way. Dr. Stanforth has made wonderful discoveries in this work and as his name is a household word to all lovers of dogs and cats.

When the rubber neck cars pass this hospital it is the cynosure of the sightseer who rides therein. It is one of the noted places of Cleveland. When the dogs in some of the wards are in confusion and contentment does not reign supreme the butler will put a record in the large victrola, and the music will soothe the aching pain.

Think of a dog or cat's limb crushed to a pulp, and in a few days strong and well after it has been set. A little dog is playing in the street, a bone is thrown or an automobile runs over it, and his eye is knocked out. His master or mistress brings him to Dr. Stanforth's hospital. The destroyed or mutilated eye is removed and a glass one takes its place, and no human being can detect the difference.

Dr. Stanforth has nineteen different dog and cat remedies always ready. By describing your dog's or cat's ailment and remitting with the order Dr. Stanforth, 105 Cedar avenue, Cleveland, O., will forward the remedy he believes to be suited to the case. Write of your dog and cat ailments to Dog and Cat Hospital, 105 Cedar avenue, Cleveland, O.

ITALY TO SEND AID TO SERBIA INTO ALBANIA

(ASSOCIATED PRESS TELEGRAM)

Rome, Nov. 8.—Via Paris, Nov. 9.—What appears to be a forecast that Italy will send troops to Albania to aid the Serbs is contained in a semi-official note which says that while Italy did not participate in the recent expedition of the allies to assist Serbia she has found a better way to oppose the Austro-German-Bulgarian attack upon Serbia.

The way, the note says, was opened by the Bulgarians themselves when they threatened to invade Albania to reach the Adriatic, a design so dangerous to Italy's interests that "the mere threat must oblige Italy to take appropriate measures to frustrate it immediately."

STEAMER FIRE EXTINGUISHED

(ASSOCIATED PRESS TELEGRAM)

New York, Nov. 9.—The fire in the hold of the passenger steamer Rochambeau which broke out after the liner left here last Saturday has been extinguished and the steamship is now proceeding to Bordeaux.

News that the fire in the reserve coal bunker of the Rochambeau had been extinguished was received in a brief wireless message this morning from Captain Juban.

"Have succeeded in extinguishing the fire and am proceeding to Bordeaux. All well on board."

Clear Your Skin

Eczema, psoriasis, ring worm, pimples, boils and crusts are due to myriad deeply buried germs in the skin. To secure relief and cure these germs must be destroyed and eliminated.

The D. D. D. Prescription, a mild compound in liquid form of oil of wintergreen, thymol and other healing elements, will give instant relief in all cases. Unlike salves, it penetrates to the deeply buried germs, kills and washes them out.

All druggists have D. D. D. A generous trial bottle for 25c. Come in and let us tell you about our money back guarantee offer on a full size bottle. Ask also about D. D. D. Soap.

Frank D. Hall, 30 North Side Square.

Your Boys and Girls

A fault, often laid to the mother, is the habit of unnecessary fault-finding or nagging. One reason many mothers have so little influence with their children, is the habit of insisting on non-essentials. They make a fuss about trifles and lay down the law on points which are of no great consequence—like the kind of stockings or gloves the girl must wear—and then, when there is need of protesting against some really wrong course, they have used up all their force on unimportant details and their words carry no weight with their children.

You cannot begin too early, however, to teach your children to obey. If there is occasional rebellion, it should be checked immediately, although I think it a child is taught obedience from earliest infancy, the idea of revolt will never present itself as possible.

NO WOMAN NEED HAVE STRAIGHT, LANK HAIR

Instead of burning the life out of your hair with a heated curling iron, you can add to its life by using plain liquid salmure, and at the same time secure a far better and prettier result. Your hair will have a delightful curl and natural wavy appearance, no matter in what form it is done up, if you will simply apply a little of this harmless fluid at night with a clean tooth brush, drawing this through the hair from root to tip.

A few ounces of liquid salmure from the drugist will last you a long while. This will not split the scalp or streak the hair, and it is neither sticky nor greasy. It is without question the best hair curling method yet found and no doubt will soon be as popular here as it is abroad.

Theatres

Tonight's Attraction.

Mazda—"Destiny, or the Soul of a Woman" (Emily Stevens).

Alhambra—"The Secret Sin" (Blanche Sweet).

Grand—"Inheritance" (Ruth Stouchehouse and Bryant Washburn).

Auditorium—"Butterfly on the Wheel" (Nancy Boyer Stock company).

Gem—"The Diamond from the Sky"; "The Wasp," featuring Vivian Rich.

Packed House Last Night.

Dainty and charming Nancy Boyer was the magnet which drew a capacity audience to the Auditorium last night where Miss Boyer starred in "Bought and Paid For." The supporting company is above the average and is headed by Edie Taylor, an actor of rare ability.

Miss Boyer is a great favorite in this city and her annual local engagement is always awaited with much anticipation. Last night Manager Harry English of the Auditorium was forced to hang out the S. R. O. sign and turn down a great many requests for reservations.

Nancy, as she is known to all her local admirers, will be seen in "The Butterfly on the Wheel" tonight and Wednesday matinee in "Bought and Paid For." Wednesday night the company will produce "Baby Mine," a most laughable farce.

If you have not made your reservations for any of the attractions which are to be produced during the balance of Nancy's engagement you had better phone your order to the Auditorium box office and Manager English will be glad to take care of you.

Alhambra Friday and Saturday.

Blanche Ring, the celebrated comedienne, has been coaxed into motion pictures by Oliver Morosco and will shortly be presented in "The Yankee Girl," an adaptation of her great musical comedy success of several seasons ago. The charge of artificiality often lodged against musical productions never applied to "The Yankee Girl" with its breezy wit and capital situations. It applies even less to its Morosco filmization in view of the beautiful marine scenes taken at the world famous Catalina Islands, and the hacienda scenes taken at the Fernandez Sanchez ranch house, a landmark 150 years old half-way between Los Angeles and San Gabriel and one of the historic taverns of the Mission days. The dramatic possibilities Morosco has developed from the Blanche Ring musical hit by the simple expedient of staging it in natural scenery, a thing only possible in motion pictures, opens up a new utility for the higher class musical comedies. Blanche Ring is splendid in "The Yankee Girl."

Blowholes and pinholes in castings are caused by overheating the metal while melting. Pinholes are nothing but small holes.

ALHAMBRA

TONIGHT—Paramount pictures—Jesse L. Lasky presents America's most popular screen star, BLANCHE SWEET, in "THE SECRET SIN," by Margaret Turnbull.
TOMORROW AND THURSDAY—Paramount pictures—Daniel Frohman presents the charming artist, HAZEL DAWN, who appeared here in "The Pink Lady," on the legitimate stage a few years ago, now in pictures, "THE HEART OF JENNIFER," by Edith Barnard Delano, author of "Rags."

AT THE GEM

TONIGHT

Chapter 25 of "THE DIAMOND FROM THE SKY," in two parts.
"THE WASP," two part American drama with VIVIAN RICH in the titular role, supported by an all-star cast.

We have just installed the machinery for charging electric cars and rebuilding and charging electric batteries for starter and have a man who has had ten years' experience in building electric cars and batteries. In case you should have trouble with your electric cars, take them to SPILLMAN'S GARAGE, 53 South Third street.

EMILY STEVENS in "DESTINY OR THE SOUL OF A WOMAN," at the MAZDA tonight and tomorrow.

Drink Chalybeate Spring Water. It's pure. Phone 1318, Bell 741 R.

MILLIONS USE IT TO STOP A COLD

"PAPE'S COLD COMPOUND" ENDS SEVERE COLDS OR GRIPPE IN FEW HOURS.

Relief comes instantly. A dose taken every two hours until three doses are taken will end grippe misery and break up a severe cold either in the head, chest, body or limbs. It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness. Don't stay stuffed-up! Quit blowing and snuffing! Ease your throbbing head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, causes no inconvenience. Be sure you get the genuine.

ATTENTION, L. O. O. M.

Something doing Thursday night. All members urged to be present. Big pig roast. Com.

Closing out of all of our Children's hats this week at 25c to \$1.00. Worth from \$1.00 to \$3.00. 9-3t CLOUSE & SCHAUWEKER.

CONNETT DANCE, ARMORY THURSDAY NIGHT. 9-2t*

"Cool days coming!! Let Sachs, Dry Cleaner, clean that suit and overcoat now. Phone 5135. 11-8d2t

Dr. Carl J. Dillon announces removal of office from 35½ South Park to 17 South First street, opposite Sherwood Hotel. 10-30-1mo*

LICKING STORAGE AND TRANSFER CO. South Second St. Storage, Draying and Teaming. Auto Phone 1042. 10-20dtf

Dr. A. V. Davis, Dentist, 36 1-2 W. Main, opposite Advocate. Phone Auto 1318; Bell 741 R. 11-5-tf

"We knock the spots." Call Sachs, Dry Cleaner. We do fine repairing. Phone 5135. 11-8d2t

Euchre party Tuesday evening will be given by the Women's Loyal Moose Circle. 8-2t

BRYANT WASHBURN AND RUTH STONEHOUSE AT THE GRAND TONIGHT.

MILLINERY—Just received a large shipment of velvet shapes worth from \$1.50 to \$2.50. Will put on sale this week at 59c to \$1.49. Certainly bargains. MARGARET BOYER. 11-9-2t* 56 S. Second St.

Open Branch Store. The Inter-City Tea Company has opened up a branch store at 293 East Main street with John Birmingham in charge. This will be a branch of the store at 7½ North Third street conducted by Paul V. Helm.

Men's Suits cleaned \$1.00. Penick Dry Cleaning Works. Phone 7325. 11-9-3t*

This will be BARGAIN WEEK on TRIMMED HATS at our store. 9-3t CLOUSE & SCHAUWEKER.

Trinity Men's Club. A business meeting and smoker of the Men's club of Trinity Parish will be held in the Parish House tomorrow evening, November 10 at 7:30 o'clock. An election of officers will take place. Dr. W. A. Funk is now president of the Men's club.

On Hunting Trip. A number of Advocate employees are preparing for a rabbit feast after tomorrow for Jasper Wilson, foreman of the Advocate press rooms started on his annual hunt this morning and promised to bring back a bunch of rabbits. As "Jap" is known as a dead shot there is no doubt but that he will make his word good.

Apples Plentiful. The apple crop this year was one of the heaviest for some time. In the northern part of the county the crop is gathered and left boarded up in the orchards until it can be shipped out. Hundreds of tons of apples in the county have also gone to waste by being allowed to rot on the ground.

Chief Bausch Better. Fire Chief Bausch, injured at the fire in the Riggs Hatter works, was able to be at headquarters for a time this morning, though he finds it difficult to walk on the injured leg.

Held to Grand Jury. Sidney Davis, 21, arrested on a charge of stealing a bicycle, was arraigned before Mayor Blighe this morning in police court. He waived examination in police court and was bound over to the grand jury under

bond in the sum of \$100. Three drunks and two train riders drew fines.

Has Unclaimed Horse. Delaware's chief of police has asked the local officers to aid him in finding the owner of a horse which was abandoned in Delaware by two youths a few days ago. The animal is a light bay, weighs about 900 pounds, white star in forehead, white right hind foot, foretop clipped and had no shoes when found.

Mr. Wolfe's Condition. The condition of Ira Wolfe, who was seriously burned yesterday when he came into contact with a high tension wire, was encouraging today. At the Sanitarium it was stated that he was resting comfortably and that no unfavorable symptoms had developed thus far.

Mr. Russell's Condition. The condition of Arthur Russell of Fulton avenue, who was shot while hunting near Kierksville, was not so satisfactory today. He was restless most of the day.

Missionary Meeting Postponed. The regular meeting of the Woman's Home and Foreign Missionary Society of the St. Paul's Lutheran church has been postponed to November 18.

Soft For William. "Bill" Gerlach, whose place of business at the Emerson corner is the headquarters for everyone with sporting proclivities, has received from an old time friend in Richland county a fine barrel of Grimes' Golden apples. The apples were picked on one of the best fruit farms in Central Ohio and Mr. Gerlach had them removed to his apartments but before doing so remembered a number of his friends with samples of the Richland county product.

Recovering Nicely. Fred Hampshire, who lost his eye through an unavoidable accident while hunting and who was operated on at the City Hospital Sunday, is getting along fine and a speedy recovery is predicted by his physicians. Through a misunderstanding Mr. Hampshire's age was reported as 48, while in fact he has not yet reached thirty.

Inspecting Ditch. County Commissioners J. H. Orr, Frank R. Dumm and Orville Kiger are out this afternoon inspecting the J. R. Hughes ditch in Jersey township and re-adjusting the assessments.

Sale of Rugs. The oriental rugs which have been advertised at sheriff's sale for Wednesday, Nov. 17, are attracting much attention. There are three of them and they are on display at the sheriff's office, scores of persons, including many women, calling daily to examine them. They will be sold without reserve to the highest bidder.

Visited Infirmary. County Commissioners Jos. H. Orr, Frank R. Dumm and Orville Kiger spent yesterday afternoon at the county infirmary inspecting the farm, buildings and stock. They found everything in first class condition the crops being especially bounteous and the stock all in excellent shape. All inmates are well pleased with the treatment which they are receiving.

Appointed Administrator. The will of Anson B. White has been admitted to probate and Robert A. White has been appointed administrator with the will annexed. Bond, \$7000.

Marriage Licenses. Frank A. Young, farmer, and Mrs. Catherine Coughlin, both of Granville township.

Arthur B. Moore, laborer, and Miss Gladys C. Fikes, both of Croton, O.

Divorce Granted. Oscar Tanner today was granted a divorce in probate court from Nettie Tanner, on the ground which were alleged in the plaintiff's petition.

In Common Pleas. In common pleas court on Tuesday the court and a jury were engaged in the trial of the case of Jane Parks vs. Joseph Walton. The suit is brought to recover damages in the sum of \$5,000 for an assault and battery committed upon the plaintiff by the defendant on the 22nd of April, 1912. Plaintiff claims defendant struck her over the head with a hoe. The parties lived on Fifth street, this city. The defendant died several months since.

Emma Thompson vs. the Industrial Commission of Ohio. Leave given to file a reply.

Chas. M. Wilson vs. Jacob Bline. Heretofore assigned for trial Friday. Continued.

For trial Wednesday. Stahl vs. Hull; Heaton vs. City of Newark.

INFANTRY BATTLES IN REGION OF LOOS (ASSOCIATED PRESS TELEGRAM)

Paris, Nov. 9.—There has been infantry fighting in the region of Loos, according to the announcement given out this afternoon by the French war office; violent bombardments near Beauvraignes and spirited artillery fire by the French in the Champagne district.

Have Healthy, Strong, Beautiful Eyes. Recently used Murine Eye Remedy many years before it was offered as a Domestic Eye Medicine. Buy Murine of your Druggist—accept no Substitute, and it interested write for Book of the Eye. Free. MURINE EYE REMEDY CO., CHICAGO.

Council Refuses to Take Any Action on Police Situation; Two Measures Fail to Pass

Two echoes from the Hager trial in common pleas court ten days ago, reached the council chamber last night when an ordinance and a resolution, each being the result of the charges brought against Police Captain Hager, were introduced. Neither found support strong enough to secure action on them.

Councilman Knauber's ordinance to abolish the position of telephone operator at police headquarters, and provide positions for desk sergeants instead, failed to get enough support to suspend rules and be passed.

Opposition of councilmen, expressed in short talks on the measure, was based upon the theory that the passage of the ordinance would make the operators the "goat." When roll was called, Messrs. Adams, Baker, Keyes, Legge and Rexroth voted no on suspension of rules. Ashbrook, Knauber, Payne and Seward supported the motion but it was declared lost.

Councilman Seward's resolution was more drastic in its tone. It condemned the action of Safety Director Carl Dayton in retaining Captain Hager. In his address in support of the measure Mr. Seward declared that the administration was being held responsible for the unpleasant notoriety and that it was being blamed for not taking some further action. He admitted that the safety director was not wholly to blame as the officer had been freed from the charge brought against him in court and that under the civil service rules there was not much left for the safety director to do but to allow the officer to return to work. He blamed the civil service rules for the situation. There were no remarks from any of the other councilmen and President Keller called several times for a second to the motion. Mr. Seward again addressed council and declared that the members of council would be held responsible by the citizens for their failure to take some action on the question. It was passed without a second.

Councilman Knauber, previous to the opening of the meeting, relieved his mind of a number of "anxieties" which he said had come to his attention, these being alleged errors in the press reports of the council proceedings. He concluded his remarks by saying "I used to be good enough to furnish figures and information to the newspapers but they abused the 'privilege' by not printing the 'dope' and I quit doing it." As far as could be gathered from his remarks, Mr. Knauber or his informants, interpreted newspaper accounts in a manner unwarranted by the text of the reports, barring occasional typographical errors.

All members were present when roll was called at 8:10 o'clock. Rumors of action to be taken by council brought out many citizens who were interested in what would be brought before the legislative body. City Auditor Dodd, Solicitor Norrell, Service Director Christian and Engineer Wells were present.

After the reading of the minutes the vast quantity of business on the clerk's desk was taken up.

The finance committee submitted a communication from the industrial commission of Ohio, rejecting the Hudson avenue improvement bonds. It was received and filed.

The street committee asked for more time on the proposition to make South Second street a market street; it recommended the survey of property in South Fifth street where it is proposed to open a street.

The land committee recommended the payment of the claim for overtime by engineers and firemen at the waterworks; it found that the question of opening of Kibler street required no legal action and recommended that action be taken by the street committee's monthly report showed the following collections:

City Cases, \$26.00
Licenses 61.67
Other Collections 58.00
State Cases.

Fines \$111.80
Mayor's Fees 68.75
Officers' Fees 38.05
Other Collections 5.50

The Sinking Fund trustees notified council that it had rejected the Hudson avenue improvement bonds because of a lack of funds.

The canvassing board of elections reported that the official vote on the proposed bond issue was: For the issue 3336; against the issue 2035. The ordinance was ordered spread on the minutes.

Clerk Woodward reported the service of notices for the construction of a sewer in North Fifth street. He also reported that he had \$62.50 of the cemetery endowment fund and asking for instructions regarding its investment.

James P. Murphy and 70 others protested against any proposed abandonment of West Main street as a market street.

C. F. Glenn and others presented a plat of the Willis Robbins' Heirs' addition asking that it be accepted. A proposed ordinance to give physicians the right of way in streets when answering emergency calls, was referred to the safety committee.

J. B. Evans and W. V. Von Tassel asked for a private sewer in Thirteenth street. High School students called council's attention to the poor condition of sidewalks in West Main street west of Eleventh street. C. W. and H. B. Miller asked council to take action on the poor walks in front of Brown Brothers' place in South Second street.

The Canal Land Company, by its president, R. M. Davidson, offering a small tract of land near the electric light plant, to the city. The letter was received and filed.

Property owners along an alley from Fourth to Fifth streets, between Main and Church streets, sent

to council a letter waiving all rights to damages which might result from grading the streets.

An ordinance by Mr. Adams determining to proceed with the construction of the North Fourth street sewer, was passed on suspension of rules.

Mr. Payne's ordinance, accepting the Robbins' Heirs' addition, was passed on suspension of rules.

Mr. Payne's ordinance to transfer \$5,000 from the general fund to the safety fund was passed on suspension of rules.

An ordinance by Mr. Ashbrook authorizing the Freedom Oil Works to place a 575 gallon oil tank under the sidewalk in front of 61 South Third street, the measure was passed, Dr. Legge voting no.

An ordinance by Mr. Knauber amending an ordinance regulating the police department providing for a "desk" sergeant at headquarters, and doing away with the telephone operators at headquarters. The motion to suspend rules was lost.

Councilmen Ashbrook, Knauber, Payne and Seward supporting the measure and Messrs. Adams, Baker, Keyes, Legge and Rexroth opposing the suspension of rules.

Mr. Knauber offered a resolution to prohibit the parking of automobiles in the Arcade Annex, the Rutledge-Jones arcade and the alley passing police headquarters and the Trust building.

Mr. Seward's ordinance on second reading, giving one day off in ten to police officers was referred to the safety committee.

Mr. Payne's resolution directing the service director to remove a tree in Buena Vista street was adopted.

Mr. Payne's resolution authorizing the clerk of council to invest \$62.50 of the cemetery endowment fund in a certificate of deposit was adopted on suspended rules.

Mr. Adams' resolution to prepare plans for the paving of Chestnut street was adopted. His resolution granting permission for a private sewer in Thirteenth street was adopted.

A resolution by Mr. Baker to improve alleys from Main to Church and Fourth to Fifth streets by changing the grade, was given its first reading.

Mr. Seward offered a resolution condemning the action of Safety Director Carl S. Dayton in retaining Charles Hager as captain of the police department, and directing the clerk to send a copy of the resolution to the safety director. Mr. Seward spoke at length in supporting the resolution and declared the administration was being held responsible for the so-called "scandal." He blamed the civil service laws which he said prevented any action on the part of the safety director.

He declared that charges should be brought against the police official and the matter fully investigated. His motion to adopt the resolution received no second. He again addressed council and said that members of council who refused to support his motion would be held responsible by the people of the city.

Councilman Payne's resolution declaring it necessary to improve Indiana street by paving was adopted on suspension of rules.

Council adopted the resolution to pay into the police pension fund that part of police cost costs collected for the use of the patrol wagon.

Council members were told that approximately \$22,000 delinquent special assessment tax was still unpaid in the county treasurer's office and an effort was made to have the solicitor notify the auditor to advertise the sale of property against which the assessment was levied. It was pointed out that it was the duty of the auditor to advertise these delinquents without notice from the city.

Councilman Seward, as chairman of the special committee named to inquire into the proposition to secure a statue from Bryce B. Baughman of Black Run, reported that Mr. Baughman was ready and willing to execute a commission whenever the city decided upon what subject was wanted. He was not willing to enter into a contract for the work, as he expected no compensation for it.

Genuine Prescription For All Rheumatism

Pain Disappears and Swelling Vanishes in a Few Days.

Rheuma—that is the name of the scientific prescription that is putting rheumatism out of business.

Rheuma cures by driving the uric acid from the blood. It also acts directly on the kidneys and is better for them than most so-called kidney cures.

Says Samuel Powell of Geneva, Ky.: "For several years I was such a sufferer from rheumatism I could not straighten out my right arm or leg. After taking one bottle of Rheuma my limbs are supple and free from pain."

Gratifying relief comes in a day, because Rheuma acts at one time on the kidneys, stomach, liver and blood, 50 cents a bottle of T. J. Evans and all druggists.

Health and Happiness Depend Upon Your Liver.

That sluggish liver with its sluggish flow of bile is what makes the world look so dark at times. Dr. King's New Life Pills go straight to the root of the difficulty by waking up the action of the liver and increasing the bile. Dr. King's New Life Pills cause the bowels to act more freely and drive away those "moody days." 25c. a bottle.

The Poet's Wife—"My new hat is a perfect poem." The Poet—"Go! If I could get as much for a poem as your milliner gets for a hat I'd retire in about six months."

W. H. Mazey Company

Y. W. C. A. WORK IN FOREIGN FIELDS.

In 1907 the first Y. W. C. A. conference was held in China. Eight years later there were six of them in five different sections of the nation. The first conference in America met in 1891. It was twelve years later when six conferences in four sections of the United States were possible.

Thus experimentation and methods slowly developed in our land have facilitated rapid growth in other countries.

Donkeys, rickshas, Peking carts or Pullmans and steamers, which seem most like going to a summer conference? That depends on whether you are in China or America. It is rickshas for us this time. We were going from Wo Fu Sen to the conference in North China. Through the crowded streets of Peking we went out on the old stone road leading to the summer palace. Dodging lumber carts and numerous people on we went encountering at one point half a dozen camels. Passing now wretched hovels, now fields of ripe millet, now passing below frowning village watch towers, we arrived at last at Wo Fu Sen, the Temple of the Sleeping Buddha. On one of the pillars printed in Chinese is this poster: "Third annual conference of the Young Women's Christian Association."

The visitor from abroad marveled to see so many Chinese women in places of leadership in the conference. There were speakers and teachers, a secretary, a doctor, a nurse, the choir and its director, the self-government committee, the assistant athletic manager with Chinese ladies presiding.

One does not need to tell Chinese students today of China's desperate need. The fire of patriotism is kindled. Many of the evils of the old order are being burned away. But it is like a brushwood fire which sometimes gets beyond control and destroys valuable property.

Discrimination, constructive ideals and the realization of the need of

some power outside of themselves to make these ideals effective—these are some of the things that China's students need today.

If the summer conferences can minister to those needs they will be fulfilling a great part of their function. These conferences are proving effective. No three American conferences could produce more variety and talent. The portrayal of the Good Samaritan skillfully acted out by the girls. Greetings from all nations presented by one school which included everything from a grinning Fiji Islander to a smart American lady. The excellent pantomime of the Anopheles famine sufferers and the Red Cross relief. It would be hard to find an American group that could recite Blow, Pugsles Blow, with such exquisite feeling. They knew and loved Brier Rabbit. They were enthusiastic over Row, Boatman, Row, Scotland's Burning and other round-els. All this done on a Chinese lake by Chinese girls.

The following are some of the things 150 girls promised to do during the summer:

1. Teach children not to use bad language.
2. Teach children to wash their faces and comb their hair.
3. Help neighbors to clean up their premises and plant flowers.
4. Teach poor mothers how to care for babies.
5. Use influence against cigarette, smoking and wine drinking.
6. Teach families to sleep with open windows.
7. Teach a Bible class.
8. Teach a Sunday school class.

You can't always tell how much mind a woman has from the length of time it takes her to make it up.

CORN CONTEST BUT NO PRIZES FOR WINNERS

The county commissioners today announced their finding in the Licking county corn test. There were a number of entries but it is doubtful if the prize winners will receive anything for their trouble, which does not speak well for Licking county.

Commissioners Jos. H. Orr, Frank R. Dumm and Orville Kiger, with clerk of the board Ben B. Jones, have decided that John Kummer, 17, of Harrison township, and Charles Blime, 18, of Newton township are the winners and should be entitled to any free trips which may hereafter be offered. Young Kramer raised 105 bushels and 15 pounds of corn on one acre of land which he cultivated. On the same acre last year he raised 127 bushels.

Charles Blime who is a son of Mr. and Mrs. Fred Blime, residing on the Frank Lott farm, raised 103 bushels and 23 pounds on his acre of land. These boys entered the contest early in the spring and they have worked hard believing that they would be awarded a free trip to Washington on the Ohio Corn Boys' special in case they should win. They won but there is no way in which to reward them. It has been suggested that probably some of the granges might take the matter up with the officers of the state society and arrange for awarding some prize to the winners.

B. & O. ROAD HAS BIGGEST BUSINESS IN ITS HISTORY

(Special to Advocate.) Baltimore, Nov. 9.—Upon his return from an inspection of the B. & O. railroad, A. W. Thompson, operating vice-president, reports that while the road is handling the largest business in its history with greatest efficiency, the high tide of industrial activity is not in sight, indications pointing to a continuing improvement in business.

The Baltimore and Ohio is handling its greatest volume of business at lowest cost," said Mr. Thompson. "The property is in its best of physical condition and the outlook is the brightest that the road has known. With the increase in business offering, the situation has required careful watching to prevent a shortage of cars, but we have circumvented that by special methods for obtaining maximum service out of every car owned. The assistance of shippers has been secured in loading and unloading and with special supervision it has been possible to keep the equipment moving with regularity.

"Handling railroad equipment is similar to the problem confronting a merchant when business begins to overtax the capacity of his delivery wagons. Just as the retailer places an additional man on a wagon to assist the driver and see that he is covering as much of the city as possible, so has the B. O. put men on the road to keep the cars moving. With one shipment of 1,500 railroads of rails now in transit to the Pacific coast there are men following whose duty it is to keep the cars moving so that they may be returned promptly for other service.

"With the largest grain crop ever harvested in the west, we shall in all probability bring to the eastern ports record shipments which will surpass the figures of the past year. There has been as much as 9,000,000 bushels of grain handled through the port of Baltimore in one month and that this record will be exceeded is likely. The steel business is heavy and the coal tonnage is reaching a top figure.

SCRATCHED 10 YEARS HEALED IN ONE WEEK

Finally Cured By Using One Dollar Bottle of Amolox.

One bottle of Amolox cured me. For ten years I suffered with eczema of the scalp, my head being covered with scales and scabs. I tried everything recommended and everything advertised without relief until I bought a bottle of Amolox. It relieved the itching at once and one bottle entirely cured my eczema. I heartily and cheerfully recommend it to all sufferers of this horrible disease.

James W. Seward, Brazil, Indiana. Amolox ointment will quickly remove pimples on the face, blackheads, and clear up a muddy complexion. Trial size 50c. Bad cases of eczema, psoriasis, salt rheum, tetter, lasting for years, require both Amolox solution and ointment to effect a cure. Recommended and guaranteed by T. J. Evans.

WILL DELIVER FRESH SALMON AT YOUR DOOR

Transportation companies and especially express companies display ingenuity in reaching out for business. The fact has been demonstrated on numerous occasions. One of the latest ingenious methods is that of the Wells Fargo Express company which will deliver to your door a Columbia River salmon, weighing from seven to ten pounds at a very moderate price. The fish is carefully packed in ice at Portland, Oregon, and is then re-iced daily until it reaches its destination. A baked salmon is a treat, especially to those who have only tasted salmon shipped to Newark in small cans. Agent C. F. Imhoff or his able assistant, Roy Marvin, would be glad to place an order for any one who may be interested in their method.

EAST SIDE OF THE SQUARE

Meyer & Lindorf
NEWARK, OHIO.

THE STORE THAT SERVES YOU BEST

STUDEBAKERS IN RELIABILITY RUN ON A BIG SCALE

A reliability run, on the largest scale and the most unique ever undertaken, was started by Studebaker, Monday, Nov. 8. Participating is more than one hundred dealers scattered over various states. The run will be held regardless what the state of the weather may be, and to cover 250 miles each day, for four successive days. Driving the scheduled distance is taking place between the hours of 6 a. m. and 6 p. m. Newspaper representatives and other official observers will accompany each car, for the purpose of keeping data on gasoline and oil consumption, and the cars' performances.

The test is remarkable, not only for its duration and distance covered, but by reason of the fact that something over a hundred 1916 Studebakers will be taken directly out of stock and put through the severest of tests. The total distance covered will be in excess of 100,000 miles or four times the girth of the earth. Some of the entrants have arranged for special tests in making their runs. Those under jurisdiction of the Boston Studebaker Branch house are going with sealed hoods; others with the gears permanently set in high. A. K. McLuney, the Studebaker dealer at

Utica, N. Y., has four members of the fair sex driving the cars.

No stops will be made during the progress of each day's run. Schedules for each day have been prepared, fixing the time for arrival in the different cities that will be visited. The reliability run in this territory is being made by Blevins Auto Sales company, of Toledo, Studebaker Sales agents for this territory.

The Studebaker was due to pass through Newark at 4 p. m. Monday, but was 30 minutes ahead of schedule and reached here at 3:10 making an average of 40 miles an hour. The party visited the local agent S. E. Forsythe at the Auditorium garage.

On this trip the car passed through and visited the agents in the following towns leaving Toledo at 6 o'clock, Fremont, Norwalk, Plymouth, Mansfield, Ashland, Lexington, Mt. Vernon, Centerville, Croton, Newark and Zanesville.

So much interest has been shown in this driving test that in many places visited, crowds turn out with city officials and motor party escorts.

Auto phone 4644 and ask for M. Rosen, contractor for all kinds of cleaning, 94 West Main street, Newark. Best work guaranteed. 11-1 aft

GERMANS SINK STEAMER DACIA WITH TORPEDO

(Associated Press Telegram)

Algiers, Algeria, Nov. 9.—Via Paris. The French steamship Yser, formerly known as the Dacia, which was seized by a French cruiser last February while carrying a cargo of cotton from the United States to Germany has been torpedoed and sunk by a German submarine.

The news of the sinking of the Yser was contained in an official announcement made public here today, which read:

"The French ship Yser formerly the Dacia re-named after her sale by the prize court, was torpedoed while conveying to Bizerta the passengers saved from the Italian steamer Eliza Francesca. The entire crew and passengers were landed."

NORTH FRANKLIN MISSIONARY SOC.

The North Franklin Missionary Society of the St. John's Lutheran church, held their annual Thank Offering service Thursday at the home of Mrs. William Motherspaw. The hostess was assisted in entertaining by Mrs. L. B. Dumm, 75 enjoyed the interesting program rendered by the members of the society. First on the program was the opening ser-

vice by the president, Mrs. J. L. Watson, song, O Worship the King. Prayer, Mrs. L. B. Dumm. Scripture reading Mrs. Delbert Ewers. Song God is Love. Thanksgiving Ann, by Mrs. F. C. Osborn. Where the Hand of God is Seen, by Mrs. J. W. Motherspaw. Duet, Not a Sparrow Falteth, Mrs. D. E. Dustermer and Mrs. L. B. Dumm. A dialogue The Tea Party, by Mrs. Carl Ritchey, Mrs. J. Taylor, Misses Maggie and Hazel Taylor. Thanksgiving, Mrs. N. Youse. Duet, Beautiful Savior, Mrs. Bert Watson and Miss Helen Watson. Reports of convention at Urbana, O., by Mrs. F. H. Wilkin and Mrs. Perry Woolard. A talk on missionary work by Mrs. Geo. B. Schmitt of Newark. Her First Thanksgiving, Mrs. H. C. Greenawalt. Landing of the Pilgrim Fathers, Miss Maud Parr. Song, God be With You 'Till We Meet Again.

The offering amounted to \$8.75. At the close of the service a dainty lunch was served.

The next meeting will be held at the home of Mrs. James Taylor, Thursday, December 2.

Every Home Needs a Faithful Cough and Cold Remedy.

When seasons change and colds appear—when you first detect a cold after sitting next to one who has sneezed, then it is that a tried and tested remedy should be faithfully used. "I never wrote a testimonial before, but I know positively that for myself and family, Dr. King's New Discovery is the best cough remedy we ever used and we have tried them all." 50c. and \$1.00.
